*Through June 30, 2025

Firm Information: Vulcan Value Partners is an investment advisor organized as an LLC and registered with the Securities and Exchange Commission under the Investment Advisers Act of 1940. Vulcan manages long only equity accounts for United States and International clients. The firm's fee schedule for the Vulcan All Cap Strategy is as follows: 1.00% for the first \$10 million, 0.85% for the next \$40 million and 0.75% on the balance in excess of \$50 million. Fees are subject to break points on the whole amount managed at the lowest applicable fee when a client deposits a large enough lump sum amount with Vulcan.

Composite Characteristics: This portfolio strategy invests in companies across all market capitalizations. Generally, positions held in this strategy will also be held in either the Large Cap or Small Cap strategies, though with sometimes differing weights. As with those strategies, a core position in this portfolio is 5% so that theoretically we would hold 20 positions diversified across various industries. Because it is rare that we would find 20 companies meeting our investment guidelines, concentration will vary with the price to value ratios we determine for companies in which we invest. We will invest client assets in positions as small as 1% when price to value ratios are higher. We will not invest client assets in any business that is trading above our estimate of fair value. The primary benchmark is the Russell 3000 Value Index which measures the performance of the broad value segment of the U.S. equity value universe. The secondary benchmark is the Russell 3000 Index which measures the performance of the largest 3000 US companies representing approximately 98% of the investable US Equity market. Indexes are unmanaged and index figures do not reflect deductions for any fees, expenses, or taxes. New accounts that fit the composite definition are added at the beginning of the first full calendar month for which the account is under management. Closed account data is included in the composite as mandated by the standards in order to eliminate a survivorship bias. The composite was created and inceptioned on April 1, 2011. Portfolios below the minimum asset level of \$50,000 are not included in the composite.

Calculation Methodology: Valuations and returns are computed and stated in U.S. dollars, and individual portfolios are revalued daily. Gross of fees returns are calculated gross of Vulcan's actual management fee and custodial fees and net of transaction costs. Net of fees returns are calculated net of Vulcan's actual management fee and transaction costs and gross of custodian fees and third party management and administrative fees. The composite results portrayed reflect the reinvestment of dividends, capital gains, and other earnings when appropriate. Accruals for equity securities are included in calculations. The dispersion measure is the asset-weighted standard deviation of accounts in the composite for the entire year. Dispersion and Standard Deviations are calculated using gross returns and are not shown intra-year as they are neither statistically meaningful nor relevant prior to year-end.

Other Disclosures: Vulcan Value Partners claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS Standards. Vulcan Value Partners has been independently verified for the periods April 1, 2007 – June 30, 2025 by ACA Performance Services. The verification report is available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. A complete list and description of all composites, limited distribution pooled funds, and broad distribution pooled funds is available upon request. Past performance does not guarantee future results. This performance report should not be construed as a recommendation to purchase or sell any particular securities held in composite accounts. Market conditions can vary widely over time and can result in a loss of portfolio value. Additional information regarding policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. GIPS® is a registered trademark of CFA Institute.
