

**Vulcan Value Partners Fund
Vulcan Value Partners Small Cap Fund
(each a “Fund”, and collectively, the “Funds”)**

Each a series of Elevation Series Trust (the “Trust”)

*Supplement dated January 12, 2026 to the Funds’ Combined Prospectus, Summary Prospectus and Statement of Additional Information (“SAI”),
dated September 16, 2025, as may be supplemented and/or revised from time to time.*

Effective January 16, 2026, the address of Paralel Distributors LLC and Paralel Technologies LLC is 1700 Broadway, Suite 2100, Denver, Colorado 80290. All references to the address of Paralel Distributors LLC and Paralel Technologies LLC are revised accordingly.

Change of Fund’s Purchase and Sale of Shares Regular Mail Address

Effective January 16, 2026, the address for Fund purchase or redemption requests made by regular mail and listed in the “Purchase and Sale of Shares” section of each Fund’s Prospectus and Summary Prospectus is as follows:

*Regular Mail
Vulcan Funds
PO Box 2170
Denver, CO 80201*

Change of the Funds’ Overnight Mailing Address

Effective January 16, 2026, the address for Fund purchase or redemption requests made by regular mail and overnight delivery listed in the “BUYING SHARES” “By Mail” and “SELLING SHARES” “By Mail” sections of each Fund’s Prospectus is as follows:

*Regular Mail
Vulcan Funds
PO Box 2170
Denver, CO 80201*

*Overnight Delivery
Vulcan Funds c/o Paralel Technologies
1700 Broadway, Suite 2100
Denver, CO 80290*

* * *

PLEASE RETAIN THIS SUPPLEMENT FOR FUTURE REFERENCE.

STATEMENT OF ADDITIONAL INFORMATION

September 16, 2025

This Statement of Additional Information (“SAI”) is not a prospectus and should be read in conjunction with the prospectus dated September 16, 2025, as may be supplemented from time to time (“Prospectus”), of the Vulcan Value Partners Fund and the Vulcan Value Partners Small Cap Fund (each a “Fund”, collectively the “Funds”), each a series of Elevation Series Trust (the “Trust”). Capitalized terms used herein that are not defined have the same meaning as in the Prospectus, unless otherwise noted.

A copy of the Prospectus may be obtained, without charge by calling 1.877.421.5078, visiting www.vulcanvaluepartners.com/mutual-funds/, or writing to Parallel Distributors LLC, 1700 Broadway Suite 1850, Denver, Colorado 80290.

GENERAL DESCRIPTION OF THE TRUST AND THE FUNDS

The Trust is an open-end management investment company, currently consisting of 30 investment series. This SAI relates to the Vulcan Value Partners Fund and the Vulcan Value Partners Small Cap Fund (each, a "Fund" and collectively, the "Funds"). The Trust was organized as a Delaware statutory trust on March 7, 2022. The Trust is registered with the U.S. Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended (together with the rules and regulations adopted thereunder, as amended, the "1940 Act"), as an open-end management investment company, and the offering of the Funds' shares ("Shares") is registered under the Securities Act of 1933, as amended (the "Securities Act"). The Funds are actively managed. The Trust is governed by its Board of Trustees (the "Board"). Vulcan Value Partners, LLC ("Vulcan" or the "Adviser") serves as investment adviser to the Funds. Each Fund's investment objective is long-term capital appreciation.

Each Fund offers and issues Shares at its net asset value ("NAV").

Each of the Vulcan Value Partners Fund and the Vulcan Value Partners Small Cap Fund acquired all of the assets and liabilities of the predecessor Vulcan Value Partners Fund and Vulcan Value Partners Small Cap Fund, respectively, each a series of Financial Investors Trust (the "Predecessor Funds"), in a tax-free reorganization on September 12, 2025 (the "Reorganization"). Each of the Predecessor Funds had the same investment objectives, strategies and policies as the corresponding Fund at the time of the Reorganization.

Each Fund is advised by Vulcan Value Partners, LLC, (the "Adviser"). The Adviser was also the investment adviser to the Predecessor Funds.

ADDITIONAL INFORMATION ABOUT INVESTMENT OBJECTIVES, POLICIES, AND RELATED RISKS

Each Fund's investment objective and principal investment strategies are described in the Prospectus. The following information supplements, and should be read in conjunction with, the Prospectus. For a description of certain permitted investments, see "[Description of Permitted Investments](#)" in this SAI.

With respect to each Fund's investments, unless otherwise noted, if a percentage limitation on investment is adhered to at the time of investment or contract, a subsequent increase or decrease as a result of market movement or redemption will not result in a violation of such investment limitation.

Diversification

As of the date hereof, each Fund is classified as non-diversified. A mutual fund may elect to operate as a "diversified company," which generally is defined in Section 5(b)(1) of the 1940 Act as any management investment company, if at least 75 percent of the company's assets consist of cash, cash items, government securities, securities of other investment companies, and other securities. For the purposes of this calculation, "other securities" are limited in regard to any issuer to an amount not greater than 5 percent of the value of the total assets of the management company and to not more than 10 percent of the outstanding voting securities of the issuer. The Funds have chosen to be classified as non-diversified. As a result, an increase or decrease in the value of a single security may have a greater impact on a Fund's net asset value ("NAV") and total return. Being non-diversified may also cause a Fund to be more susceptible to financial, economic, political or other developments that may impact a security. Although a Fund may from time to time satisfy the requirements for a diversified fund, its non-diversified classification gives the Funds' portfolio manager more flexibility to hold larger positions in a smaller number of securities than a fund that is classified as diversified.

General Risks

The value of the Funds' portfolio securities may fluctuate with changes in the financial condition of an issuer or counterparty, changes in specific economic or political conditions that affect a particular security or issuer and changes in general economic or political conditions. An investor in the Funds could lose money over short or long periods of time.

There can be no guarantee that a liquid market for the securities held by the Funds will be maintained. The existence of a liquid trading market for certain securities may depend on whether dealers will make a market in such securities. There can be no assurance that a market will be made or maintained or that any such market will be or remain liquid. The price at which securities may be sold and the value of Shares will be adversely affected if trading markets for the Fund's portfolio securities are limited or absent, or if bid-ask spreads are wide.

Cyber Security Risk. Investment companies, such as the Funds, and its service providers may be subject to operational and information security risks resulting from cyber-attacks. Cyber-attacks include, among other behaviors, stealing or corrupting data maintained online or digitally, denial of service attacks on websites, the unauthorized release of confidential information or various other forms of cyber security breaches. Cyber-attacks affecting the Funds, the Adviser, custodian, transfer agent, intermediaries and other third-party service providers may adversely impact the Funds. For instance, cyber-attacks may interfere with the processing of shareholder transactions, impact the Fund's ability to calculate its NAV, cause the release of private shareholder information or confidential company information, impede trading, subject the Fund to regulatory fines or financial losses, and cause reputational damage. The Funds may also incur additional costs for cyber security risk management purposes. Similar types of cyber security risks are also present for issuers of securities in which each Fund invests, which could result in material adverse consequences for such issuers and may cause the Funds' investments in such portfolio companies to lose value.

Recent Market Events. U.S. and international markets have experienced and may continue to experience significant periods of volatility in recent years and months due to a number of economic, political and global macro factors including rising inflation, uncertainty regarding central banks' interest rate increases, the possibility of a national or global recession, trade tensions, political events, the war between Russia and Ukraine and the impact of the coronavirus (COVID-19) global pandemic. As a result of continuing political tensions and armed conflicts, including the war between Ukraine and Russia, the U.S. and the European Union imposed sanctions on certain Russian individuals and companies, including certain financial institutions, and have limited certain exports and imports to and from Russia. The war has contributed to recent market volatility and may continue to do so.

These developments, as well as other events, could result in further market volatility and negatively affect financial asset prices, the liquidity of certain securities and the normal operations of securities exchanges and other markets, despite government efforts to address market disruptions. As a result, the risk environment remains elevated. The Adviser will monitor developments and seek to manage the Funds in a manner consistent with achieving each Fund's investment objective, but there can be no assurance that they will be successful in doing so.

DESCRIPTION OF PERMITTED INVESTMENTS

The following are descriptions of each Fund's permitted investments and investment practices and the associated risk factors. The Funds will only invest in any of the following instruments or engage in any of the following investment practices if such investment or activity is consistent with each Fund's investment objective and permitted by each Fund's stated investment policies. Each of the permitted investments described below applies to the Funds unless otherwise noted.

Borrowing

Although the Funds do not intend to borrow money, a Fund may do so to the extent permitted by the 1940 Act. Under the 1940 Act, a Fund may borrow up to one-third (1/3) of its total assets. A Fund will borrow money only for short-term or emergency purposes. Such borrowing is not for investment purposes and will be repaid by the borrowing Fund promptly. Borrowing will tend to exaggerate the effect on NAV of any increase or decrease in the market value of the borrowing Funds' portfolio. Money borrowed will be subject to interest costs that may or may not be recovered by earnings on the securities purchased. A Fund also may be required to maintain minimum average balances in connection with a borrowing or to pay a commitment or other fee to maintain a line of credit; either of these requirements would increase the cost of borrowing over the stated interest rate.

Closed-End Funds

Closed-end funds are investment companies registered with the SEC that issue a fixed number of shares through an initial public offering, after which shares will typically be traded on an exchange such as the New York Stock Exchange (NYSE) or the Nasdaq National Market System. Unlike open-end investment companies, shares of closed-end funds are not redeemable with the fund on a daily basis. The Adviser seeks to select closed-end funds for a Fund's portfolio whose shares are trading at a discount or premium relative to their underlying net asset values (NAV).

Depository Receipts

To the extent a Fund invests in stocks of foreign corporations, such Fund's investment in securities of foreign companies may be in the form of depository receipts or other securities convertible into securities of foreign issuers. American Depositary Receipts ("ADRs") are dollar-denominated receipts representing interests in the securities of a foreign issuer, which securities may not necessarily be denominated in the same currency as the securities into which they may be converted. ADRs are receipts typically issued by U.S. banks and trust companies which evidence ownership of underlying securities issued by a foreign corporation. Generally, ADRs in registered form are designed for use in domestic securities markets and are traded on exchanges or over-the-counter in the United States.

Global Depositary Receipts (“GDRs”), European Depositary Receipts (“EDRs”), and International Depositary Receipts (“IDRs”) are similar to ADRs in that they are certificates evidencing ownership of shares of a foreign issuer; however, GDRs, EDRs, and IDRs may be issued in bearer form and denominated in other currencies and are generally designed for use in specific or multiple securities markets outside the U.S. EDRs, for example, are designed for use in European securities markets, while GDRs are designed for use throughout the world. Depositary receipts will not necessarily be denominated in the same currency as their underlying securities.

The Funds will not invest in any unlisted depositary receipts or any depositary receipt that the Adviser deems to be illiquid or for which pricing information is not readily available. In addition, all depositary receipts generally must be sponsored. However, a Fund may invest in unsponsored depositary receipts under certain limited circumstances. The issuers of unsponsored depositary receipts are not obligated to disclose material information in the United States and, therefore, there may be less information available regarding such issuers and there may not be a correlation between such information and the value of the depositary receipts.

Derivative Instruments

Derivatives are financial instruments whose values are based on the value of one or more indicators, such as a security, asset, currency, interest rate, or index. Examples of derivative instruments include forward contracts, currency and interest rate swaps, currency options, futures contracts, options on futures contracts, and swap agreements. Each Fund’s use of derivatives involves risks different from, and possibly greater than, the risks associated with investing directly in securities and other more traditional investments. Moreover, although the value of a derivative is based on an underlying indicator, a derivative does not carry the same rights as would be the case if the Funds invested directly in the underlying securities.

The SEC adopted new regulations governing the use of derivatives by registered investment companies (“Rule 18f-4”). Rule 18f-4 imposes limits on the amount of derivatives the Funds can enter into, treats derivatives as senior securities, and if each Fund’s use of derivatives is more than a limited specified exposure amount, requires the Funds to establish and maintain a comprehensive derivatives risk management program and appoint a derivatives risk manager.

Derivative instruments may be used for “hedging,” which means that they may be used when the Adviser seeks to protect the Fund’s investments from a decline in value resulting from changes to interest rates, market prices, currency fluctuations or other market factors. Derivative instruments may also be used for other purposes, including to seek to increase liquidity, provide efficient portfolio management, broaden investment opportunities (including taking short or negative positions), implement a tax or cash management strategy, gain exposure to a particular security or segment of the market, modify the effective duration of the Fund’s portfolio investments and/or enhance total return. However derivative instruments are used, their successful use is not assured and will depend upon, among other factors, the Adviser’s ability to gauge relevant market movements.

Derivative instruments may be used for the purpose of direct hedging. Direct hedging means that the transaction must be intended to reduce a specific risk exposure of a portfolio security or its denominated currency and must also be directly related to such security or currency. A Fund’s use of derivative instruments may be limited from time to time by policies adopted by the Board or the Adviser.

Options. An option is a contract that gives the purchaser of the option, in return for the premium paid, the right to buy an underlying reference instrument, such as a specified security, currency, index, or other instrument, from the writer of the option (in the case of a call option), or to sell a specified reference instrument to the writer of the option (in the case of a put option) at a designated price during the term of the option. The premium paid by the buyer of an option will reflect, among other things, the relationship of the exercise price to the market price and the volatility of the underlying reference instrument, the remaining term of the option, supply, demand, interest rates and/or currency exchange rates. An American style put or call option may be exercised at any time during the option period while a European style put or call option may be exercised only upon expiration or during a fixed period prior thereto. Put and call options are traded on national securities exchanges and in the OTC market.

Options traded on national securities exchanges are within the jurisdiction of the SEC or other appropriate national securities regulator, as are securities traded on such exchanges. As a result, many of the protections provided to traders on organized exchanges will be available with respect to such transactions. In particular, all option positions entered into on a national securities exchange in the United States are cleared and guaranteed by the Options Clearing Corporation, thereby reducing the risk of counterparty default. Furthermore, a liquid secondary market in options traded on a national securities exchange may be more readily available than in the OTC market, potentially permitting a Fund to liquidate open positions at a profit prior to exercise or expiration, or to limit losses in the event of adverse market movements. There is no assurance, however, that higher than anticipated trading activity or other unforeseen events might not temporarily render the capabilities of the Options Clearing Corporation inadequate, and thereby result in the exchange instituting special procedures which may interfere with the timely execution of a Fund's orders to close out open options positions.

Purchasing call and put options. As the buyer of a call option, a Fund has a right to buy the underlying reference instrument (e.g., a currency or security) at the exercise price at any time during the option period (for American style options). A Fund may enter into closing sale transactions with respect to call options, exercise them, or permit them to expire. For example, a Fund may buy call options on underlying reference instruments that it intends to buy with the goal of limiting the risk of a substantial increase in their market price before the purchase is effected. Unless the price of the underlying reference instrument changes sufficiently, a call option purchased by a Fund may expire without any value to the Fund, in which case the Fund would experience a loss to the extent of the premium paid for the option plus related transaction costs.

As the buyer of a put option, a Fund has the right to sell the underlying reference instrument at the exercise price at any time during the option period (for American style options). Like a call option, a Fund may enter into closing sale transactions with respect to put options, exercise them or permit them to expire. A Fund may buy a put option on an underlying reference instrument owned by the Fund (a protective put) as a hedging technique in an attempt to protect against an anticipated decline in the market value of the underlying reference instrument. Such hedge protection is provided only during the life of the put option when a Fund, as the buyer of the put option, is able to sell the underlying reference instrument at the put exercise price, regardless of any decline in the underlying instrument's market price. A Fund may also seek to offset a decline in the value of the underlying reference instrument through appreciation in the value of the put option. A put option may also be purchased with the intent of protecting unrealized appreciation of an instrument when the Adviser deems it desirable to continue to hold the instrument because of tax or other considerations. The premium paid for the put option and any transaction costs would reduce any short-term capital gain that may be available for distribution when the instrument is eventually sold. Buying put options at a time when the buyer does not own the underlying reference instrument allows the buyer to benefit from a decline in the market price of the underlying reference instrument, which generally increases the value of the put option.

If a put option was not terminated in a closing sale transaction when it has remaining value, and if the market price of the underlying reference instrument remains equal to or greater than the exercise price during the life of the put option, the buyer would not make any gain upon exercise of the option and would experience a loss to the extent of the premium paid for the option plus related transaction costs. In order for the purchase of a put option to be profitable, the market price of the underlying reference instrument must decline sufficiently below the exercise price to cover the premium and transaction costs.

Writing call and put options. Writing options may permit the writer to generate additional income in the form of the premium received for writing the option. The writer of an option may have no control over when the underlying reference instruments must be sold (in the case of a call option) or purchased (in the case of a put option) because the writer may be notified of exercise at any time prior to the expiration of the option (for American style options). In general, though, options are infrequently exercised prior to expiration. Whether or not an option expires unexercised, the writer retains the amount of the premium. Writing "covered" call options means that the writer owns the underlying reference instrument that is subject to the call option. Call options may also be written on reference instruments that the writer does not own.

If a Fund writes a covered call option, any underlying reference instruments that are held by the Fund and are subject to the call option will be earmarked on the books of the Fund as segregated to satisfy its obligations under the option. A Fund will be unable to sell the underlying reference instruments that are subject to the written call option until it either effects a closing transaction with respect to the written call, or otherwise satisfies the conditions for release of the underlying reference instruments from segregation. As the writer of a covered call option, a Fund gives up the potential for capital appreciation above the exercise price of the option should the underlying reference instrument rise in value. If the value of the underlying reference instrument rises above the exercise price of the call option, the reference instrument will likely be "called away," requiring a Fund to sell the underlying instrument at the exercise price. In that case, the Fund will sell the underlying reference instrument to the option buyer for less than its market value, and the Fund will experience a loss (which will be offset by the premium received by the Fund as the writer of such option). If a call option expires unexercised, a Fund will realize a gain in the amount of the premium received. If the market price of the underlying reference instrument decreases, the call option will not be exercised, and the Fund will be able to use the amount of the premium received to hedge against the loss in value of the underlying reference instrument. The exercise price of a call option will be chosen based upon the expected price movement of the underlying reference instrument. The exercise price of a call option may be below, equal to (at-the-money), or above the current value of the underlying reference instrument at the time the option is written.

As the writer of a put option, a Fund has a risk of loss should the underlying reference instrument decline in value. If the value of the underlying reference instrument declines below the exercise price of the put option and the put option is exercised, the Fund, as the writer of the put option, will be required to buy the instrument at the exercise price, which will exceed the market value of the underlying reference instrument at that time. A Fund will incur a loss to the extent that the current market value of the underlying reference instrument is less than the exercise price of the put option. However, the loss will be offset in part by the premium received from the buyer of the put. If a put option written by a Fund expires unexercised, the Fund will realize a gain in the amount of the premium received.

Closing out options (exchange-traded options). If the writer of an option wants to terminate its obligation, the writer may effect a “closing purchase transaction” by buying an option of the same series as the option previously written. The effect of the purchase is that the clearing corporation will cancel the option writer’s position. However, a writer may not effect a closing purchase transaction after being notified of the exercise of an option. Likewise, the buyer of an option may recover all or a portion of the premium that it paid by effecting a “closing sale transaction” by selling an option of the same series as the option previously purchased and receiving a premium on the sale. There is no guarantee that either a closing purchase or a closing sale transaction may be made at a time desired by a Fund. Closing transactions allow a Fund to terminate its positions in written and purchased options. A Fund will realize a profit from a closing transaction if the price of the transaction is less than the premium received from writing the original option (in the case of written options) or is more than the premium paid by the Fund to buy the option (in the case of purchased options). For example, increases in the market price of a call option sold by the Fund will generally reflect increases in the market price of the underlying reference instrument. As a result, any loss resulting from a closing transaction on a written call option is likely to be offset in whole or in part by appreciation of the underlying instrument owned by the Fund.

Risks of options. A Fund’s options investments involve certain risks, including general risks related to derivative instruments. There can be no assurance that a liquid secondary market on an exchange will exist for any particular option, or at any particular time, and a Fund may have difficulty effecting closing transactions in particular options. Therefore, a Fund would have to exercise the options it purchased in order to realize any profit, thus taking or making delivery of the underlying reference instrument when not desired. The Fund could then incur transaction costs upon the sale of the underlying reference instruments. Similarly, when a Fund cannot effect a closing transaction with respect to a put option it wrote, and the buyer exercises, the Fund would be required to take delivery and would incur transaction costs upon the sale of the underlying reference instruments purchased. If a Fund, as a covered call option writer, is unable to effect a closing purchase transaction in a secondary market, it will not be able to sell the underlying reference instrument until the option expires, or it delivers the underlying instrument upon exercise. When trading options on non-U.S. exchanges or in the OTC market, many of the protections afforded to exchange participants will not be available. For example, there may be no daily price fluctuation limits, and adverse market movements could therefore continue to an unlimited extent over an indefinite period of time.

The effectiveness of an options strategy for hedging depends on the degree to which price movements in the underlying reference instruments correlate with price movements in the relevant portion of a Fund’s portfolio that is being hedged. In addition, a Fund bears the risk that the prices of its portfolio investments will not move in the same amount as the option it has purchased or sold for hedging purposes, or that there may be a negative correlation that would result in a loss on both the investments and the option. If the Adviser is not successful in using options in managing the Fund’s investments, a Fund’s performance will be worse than if the Adviser did not employ such strategies.

Developing government regulation of derivatives. The regulation of certain derivatives is a rapidly changing area of law and is subject to modification by government and judicial action. In addition, the SEC, CFTC, and the exchanges are authorized to take extraordinary actions in the event of a market emergency, including, for example, the implementation or reduction of speculative position limits, the implementation of higher margin requirements, the establishment of daily price limits and the suspension of trading.

It is not possible to predict fully the effects of current or future regulation. However, it is possible that developments in government regulation of various types of derivative instruments, such as speculative position limits on certain types of derivatives, or limits or restrictions on the counterparties with which a Fund engages in derivative transactions, may limit or prevent the Fund from using or limit the Fund's use of these instruments effectively as a part of its investment strategy, and could adversely affect the Fund's ability to achieve its investment goal(s). The Adviser will continue to monitor developments in the area, particularly to the extent regulatory changes affect a Fund's ability to enter into desired swap agreements. New requirements, even if not directly applicable to a Fund, may increase the cost of a Fund's investments and cost of doing business.

Equity Securities

Equity securities, such as the common stock of an issuer, are subject to stock market fluctuations and therefore may experience volatile changes in value as market conditions, consumer sentiment or the financial condition of the issuers change. A decrease in value of the equity securities in a Fund's portfolio also may cause the value of such Fund's Shares to decline.

An investment in the Funds should be made with an understanding of the risks inherent in an investment in equity securities, including the risk that the financial condition of issuers may become impaired or that the general condition of the stock market may deteriorate (either of which may cause a decrease in the value of a Fund's portfolio securities and therefore a decrease in the value of Shares). Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence and perceptions change. These investor perceptions are based on various and unpredictable factors, including expectations regarding government, economic, monetary and fiscal policies; inflation and interest rates; economic expansion or contraction; and global or regional political, economic or banking crises.

Holders of common stocks incur more risk than holders of preferred stocks and debt obligations because common stockholders, as owners of the issuer, generally have inferior rights to receive payments from the issuer in comparison with the rights of creditors or holders of debt obligations or preferred stocks. Further, unlike debt securities, which typically have a stated principal amount payable at maturity (whose value, however, is subject to market fluctuations prior thereto), or preferred stocks, which typically have a liquidation preference and which may have stated optional or mandatory redemption provisions, common stocks have neither a fixed principal amount nor a maturity. Common stock values are subject to market fluctuations as long as the common stock remains outstanding.

When-Issued Securities - A when-issued security is one whose terms are available and for which a market exists, but which has not been issued. When a Fund engages in when-issued transactions, it relies on the other party to consummate the sale. If the other party fails to complete the sale, a Fund may miss the opportunity to obtain the security at a favorable price or yield.

When purchasing a security on a when-issued basis, a Fund assumes the rights and risks of ownership of the security, including the risk of price and yield changes. At the time of settlement, the value of the security may be more or less than the purchase price. The yield available in the market when the delivery takes place also may be higher than those obtained in the transaction itself. Because a Fund does not pay for the security until the delivery date, these risks are in addition to the risks associated with its other investments.

Decisions to enter into "when-issued" transactions will be considered on a case-by-case basis when necessary to maintain continuity in a company's index membership.

Types of Equity Securities:

Common Stocks — Common stocks represent units of ownership in a company. Common stocks usually carry voting rights and earn dividends. Unlike preferred stocks, which are described below, dividends on common stocks are not fixed but are declared at the discretion of the company's board of directors.

Preferred Stocks — Preferred stocks also are units of ownership in a company. Preferred stocks normally have preference over common stock in the payment of dividends and the liquidation of the company. However, in all other respects, preferred stocks are subordinated to the liabilities of the issuer. Unlike common stocks, preferred stocks are generally not entitled to vote on corporate matters. Types of preferred stocks include adjustable-rate preferred stock, fixed dividend preferred stock, perpetual preferred stock, and sinking fund preferred stock.

Generally, the market values of preferred stock with a fixed dividend rate and no conversion element vary inversely with interest rates and perceived credit risk.

Rights and Warrants — A right is a privilege granted to existing shareholders of a corporation to subscribe to shares of a new issue of common stock before it is issued. Rights normally have a short life of usually two to four weeks, are freely transferable and entitle the holder to buy the new common stock at a lower price than the public offering price. Warrants are securities that are usually issued together with a debt security or preferred stock and that give the holder the right to buy proportionate amount of common stock at a specified price. Warrants are freely transferable and are traded on major exchanges. Unlike rights, warrants normally have a life that is measured in years and entitles the holder to buy common stock of a company at a price that is usually higher than the market price at the time the warrant is issued. Corporations often issue warrants to make the accompanying debt security more attractive.

An investment in warrants and rights may entail greater risks than certain other types of investments. Generally, rights and warrants do not carry the right to receive dividends or exercise voting rights with respect to the underlying securities, and they do not represent any rights in the assets of the issuer. In addition, their value does not necessarily change with the value of the underlying securities, and they cease to have value if they are not exercised on or before their expiration date. Investing in rights and warrants increases the potential profit or loss to be realized from the investment as compared with investing the same amount in the underlying securities.

Medium-Sized Companies — Investors in medium-sized companies typically take on greater risk and price volatility than they would by investing in larger, more established companies. This increased risk may be due to the greater business risks of their medium size, limited markets and financial resources, narrow product lines and frequent lack of management depth. The securities of medium-sized companies are often traded in the over-the-counter market and might not be traded in volumes typical of securities traded on a national securities exchange. Thus, the securities of medium capitalization companies are likely to be less liquid, and subject to more abrupt or erratic market movements, than securities of larger, more established companies.

Smaller Companies — The securities of small- and mid-capitalization companies may be more vulnerable to adverse issuer, market, political, or economic developments than securities of larger-capitalization companies. The securities of small- and mid-capitalization companies generally trade in lower volumes and are subject to greater and more unpredictable price changes than larger capitalization stocks or the stock market as a whole. Some small- or mid-capitalization companies have limited product lines, markets, and financial and managerial resources and tend to concentrate on fewer geographical markets relative to larger capitalization companies. There is typically less publicly available information concerning small- and mid-capitalization companies than for larger, more established companies. Small- and mid-capitalization companies also may be particularly sensitive to changes in interest rates, government regulation, borrowing costs, and earnings.

Tracking Stocks — A tracking stock is a separate class of common stock whose value is linked to a specific business unit or operating division within a larger company, and which is designed to “track” the performance of such business unit or division. The tracking stock may pay dividends to shareholders independent of the parent company. The parent company, rather than the business unit or division, generally is the issuer of tracking stock. However, holders of the tracking stock may not have the same rights as holders of the company’s common stock.

Exchange-Traded Funds

The Funds will invest in shares of other investment companies (including exchange-traded funds (“ETFs”)). As the shareholder of another ETF, a Fund would bear, along with other shareholders, its pro rata portion of the other ETF’s expenses, including advisory fees. Such expenses are in addition to the expenses each Fund pays in connection with its own operations. A Fund’s investments in other ETFs may be limited by applicable law.

Disruptions in the markets for the securities underlying ETFs purchased or sold by a Fund could result in losses on investments in ETFs. ETFs also carry the risk that the price a Fund pays or receives may be higher or lower than the ETF’s NAV. ETFs are also subject to certain additional risks, including the risks of illiquidity and of possible trading halts due to market conditions or other reasons, based on the policies of the relevant exchange. ETFs and other investment companies in which the Fund may invest may be leveraged, which would increase the volatility of a Fund’s NAV. The Funds also may invest in ETFs and other investment companies that seek to return the inverse of the performance of an underlying index on a daily, monthly, or other basis, including inverse leveraged ETFs.

Inverse and leveraged ETFs are subject to additional risks not generally associated with traditional ETFs. To the extent that a Fund invests in inverse ETFs, the value of the Fund’s investments will decrease when the index underlying the ETF’s benchmark rises, a result that is the opposite from traditional equity or bond funds. The NAV and market price of leveraged or inverse ETFs are usually more volatile than the value of the tracked index or of other ETFs that do not use leverage. This is because inverse and leveraged ETFs use investment techniques and financial instruments that may be considered aggressive, including the use of derivative transactions and short selling techniques. The use of these techniques may cause the inverse or leveraged ETFs to lose more money in market environments that are adverse to their investment strategies than other funds that do not use such techniques.

Illiquid Investments

Each Fund may invest up to an aggregate amount of 15% of its net assets in illiquid investments, as such term is defined by Rule 22e-4 under the 1940 Act. The Funds may not invest in illiquid investments if, as a result of such investment, more than 15% of each Fund's net assets would be invested in illiquid investments. Illiquid investments include securities subject to contractual or other restrictions on resale and other instruments that lack readily available markets. The inability of the Funds to dispose of illiquid investments readily or at a reasonable price could impair each Fund's ability to raise cash for redemptions or other purposes. The liquidity of securities purchased by the Funds that are eligible for resale pursuant to Rule 144A, except for certain 144A bonds, will be monitored by the Funds on an ongoing basis. In the event that more than 15% of each Fund's net assets are invested in illiquid investments, the Funds, in accordance with Rule 22e-4(b)(1)(iv), will report the occurrence to both the Board and the SEC and seek to reduce its holdings of illiquid investments within a reasonable period of time.

Investment Company Securities

The Funds intend to invest in the securities of other investment companies, including ETFs and money market funds, subject to applicable limitations under Section 12(d)(1) of the 1940 Act and the rules thereunder. Pursuant to Section 12(d)(1), a Fund may invest in the securities of another investment company (the "acquired company") provided that such Fund, immediately after such purchase or acquisition, does not own in the aggregate: (i) more than 3% of the total outstanding voting stock of the acquired company; (ii) securities issued by the acquired company having an aggregate value in excess of 5% of the value of the total assets of such Fund; or (iii) securities issued by the acquired company and all other investment companies (other than treasury stock of such Fund) having an aggregate value in excess of 10% of the value of the total assets of the applicable Fund. Under certain circumstances, including in compliance with Rule 12d1-4 under the 1940 Act, the Funds may invest its assets in securities of investment companies, including money market funds, in excess of the limits discussed above.

Investing in another pooled vehicle exposes a Fund to all the risks of that pooled vehicle. In addition, if a Fund invests in and, thus, is a shareholder of, another investment company, the Fund's shareholders will indirectly bear the Fund's proportionate share of the fees and expenses paid by such other investment company, including advisory fees, in addition to both the management fees payable directly by the Fund to the Fund's own investment adviser and the other expenses that the Fund bears directly in connection with the Fund's own operations.

Money Market Instruments

Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which a Fund may invest include: (i) short-term obligations issued by the U.S. government; (ii) negotiable certificates of deposit ("CDs"), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions; (iii) commercial paper rated at the date of purchase "Prime-1" by Moody's or "A-1+" or "A-1" by Standard & Poor's ("S&P") or, if unrated, of comparable quality as determined by the Fund; and (iv) repurchase agreements. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Banker's acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Other Short-Term Instruments

The Funds may invest in short-term instruments, including money market instruments, on an ongoing basis to provide liquidity or for other reasons. Money market instruments are generally short-term investments that may include but are not limited to: (i) shares of money market funds; (ii) obligations issued or guaranteed by the U.S. government, its agencies or instrumentalities (including government-sponsored enterprises); (iii) negotiable certificates of deposit ("CDs"), bankers' acceptances, fixed time deposits and other obligations of U.S. and foreign banks (including foreign branches) and similar institutions; (iv) commercial paper rated at the date of purchase "Prime-1" by Moody's or "A-1" by S&P or, if unrated, of comparable quality as determined by the Adviser; (v) non-convertible corporate debt securities (e.g., bonds and debentures) with remaining maturities at the date of purchase of not more than 397 days and that satisfy the rating requirements set forth in Rule 2a-7 under the 1940 Act; and (vi) short-term U.S. dollar-denominated obligations of foreign banks (including U.S. branches) that, in the opinion of the Adviser, are of comparable quality to obligations of U.S. banks which may be purchased by a Fund. Any of these instruments may be purchased on a current or a forward-settled basis. Money market instruments also include shares of money market funds. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Real Estate Investment Trusts (“REITs”)

A U.S. REIT is a corporation or business trust (that would otherwise be taxed as a corporation) which meets the definitional requirements of the Code. The Code permits a qualifying REIT to deduct from taxable income the dividends paid, thereby effectively eliminating corporate level federal income tax. To meet the definitional requirements of the Code, a REIT must, among other things: invest substantially all of its assets in interests in real estate (including mortgages and other REITs), cash and government securities; derive most of its income from rents from real property or interest on loans secured by mortgages on real property; and, in general, distribute annually 90% or more of its taxable income (other than net capital gains) to shareholders.

REITs are sometimes informally characterized as Equity REITs and Mortgage REITs. An Equity REIT invests primarily in the fee ownership or leasehold ownership of land and buildings (*e.g.*, commercial equity REITs and residential equity REITs); a Mortgage REIT invests primarily in mortgages on real property, which may secure construction, development or long-term loans.

REITs may be affected by changes in underlying real estate values, which may have an exaggerated effect to the extent that REITs in which a Fund invests may concentrate investments in particular geographic regions or property types. Additionally, rising interest rates may cause investors in REITs to demand a higher annual yield from future distributions, which may in turn decrease market prices for equity securities issued by REITs. Rising interest rates also generally increase the costs of obtaining financing, which could cause the value of a Fund's investments to decline. During periods of declining interest rates, certain Mortgage REITs may hold mortgages that the mortgagors elect to prepay, which prepayment may diminish the yield on securities issued by such Mortgage REITs. In addition, Mortgage REITs may be affected by the ability of borrowers to repay when due the debt extended by the REIT and Equity REITs may be affected by the ability of tenants to pay rent.

Certain REITs have relatively small market capitalization, which may tend to increase the volatility of the market price of securities issued by such REITs. Furthermore, REITs are dependent upon specialized management skills, have limited diversification and are, therefore, subject to risks inherent in operating and financing a limited number of projects. By investing in REITs indirectly through a Fund, a shareholder will bear not only his or her proportionate share of the expenses of the Fund, but also, indirectly, similar expenses of the REITs. REITs depend generally on their ability to generate cash flow to make distributions to shareholders.

In addition to these risks, Equity REITs may be affected by changes in the value of the underlying property owned by the trusts, while Mortgage REITs may be affected by the quality of any credit extended. Further, Equity and Mortgage REITs are dependent upon management skills and generally may not be diversified. Equity and Mortgage REITs are also subject to heavy cash flow dependency defaults by borrowers and self-liquidation. In addition, Equity and Mortgage REITs could possibly fail to qualify for the favorable U.S. federal income tax treatment generally available to REITs under the Code or fail to maintain their exemptions from registration under the 1940 Act. The above factors also may adversely affect a borrower's or a lessee's ability to meet its obligations to the REIT. In the event of default by a borrower or lessee, the REIT may experience delays in enforcing its rights as a mortgagee or lessor and may incur substantial costs associated with protecting its investments.

Repurchase Agreements

Each Fund may invest in repurchase agreements with commercial banks, brokers, or dealers to generate income from its excess cash balances and to invest in securities lending cash collateral. A repurchase agreement is an agreement under which a Fund acquires a financial instrument (*e.g.*, a security issued by the U.S. government or an agency thereof, a banker's acceptance or a certificate of deposit) from a seller, subject to resale to the seller at an agreed upon price and date (normally, the next Business Day). A repurchase agreement may be considered a loan collateralized by securities. The resale price reflects an agreed upon interest rate effective for the period the instrument is held by the applicable Fund and is unrelated to the interest rate on the underlying instrument.

In these repurchase agreement transactions, the securities acquired by a Fund (including accrued interest earned thereon) must have a total value in excess of the value of the repurchase agreement and are held by the Custodian until repurchased. No more than an aggregate of 15% of a Fund's net assets will be invested in illiquid investments, including repurchase agreements having maturities longer than seven days and securities subject to legal or contractual restrictions on resale, or for which there are no readily available market quotations.

The use of repurchase agreements involves certain risks. For example, if the other party to the agreement defaults on its obligation to repurchase the underlying security at a time when the value of the security has declined, a Fund may incur a loss upon disposition of the security. If the other party to the agreement becomes insolvent and subject to liquidation or reorganization under the U.S. Bankruptcy Code or other laws, a court may determine that the underlying security is collateral for a loan by a Fund not within the control of the Fund and, therefore, the Fund may not be able to substantiate its interest in the underlying security and may be deemed an unsecured creditor of the other party to the agreement.

Securities Lending

Each Fund may lend portfolio securities in an amount up to one-third of its total assets to brokers, dealers and other financial institutions. In a portfolio securities lending transaction, a Fund receives from the borrower an amount equal to the interest paid or the dividends declared on the loaned securities during the term of the loan as well as the interest on the collateral securities, less any fees (such as finders or administrative fees) the Fund pays in arranging the loan. A Fund may share the interest it receives on the collateral securities with the borrower. The terms of each Fund's loans permit it to reacquire loaned securities on five business days' notice or in time to vote on any important matter. Loans are subject to termination at the option of the applicable Fund or borrower at any time, and the borrowed securities must be returned when the loan is terminated. The Funds may pay fees to arrange for securities loans.

The SEC currently requires that the following conditions must be met whenever a Fund's portfolio securities are loaned: (1) the Fund must receive at least 100% cash collateral from the borrower; (2) the borrower must increase such collateral whenever the market value of the securities rises above the level of such collateral; (3) the Fund must be able to terminate the loan at any time; (4) the Fund must receive reasonable interest on the loan, as well as any dividends, interest or other distributions on the loaned securities, and any increase in market value; (5) the Fund may pay only reasonable custodian fees approved by the Board in connection with the loan; (6) while voting rights on the loaned securities may pass to the borrower, the Board must terminate the loan and regain the right to vote the securities if a material event adversely affecting the investment occurs, and (7) the Fund may not loan its portfolio securities so that the value of the loaned securities is more than one-third of its total asset value, including collateral received from such loans. These conditions may be subject to future modification. Such loans will be terminable at any time upon specified notice. A Fund might experience the risk of loss if the institution with which it has engaged in a portfolio loan transaction breaches its agreement with the Fund. In addition, the Funds will not enter into any portfolio security lending arrangement having a duration of longer than one year. The principal risk of portfolio lending is potential default or insolvency of the borrower. In either of these cases, a Fund could experience delays in recovering securities or collateral or could lose all or part of the value of the loaned securities. As part of participating in a lending program, the applicable Fund may be required to invest in collateralized debt or other securities that bear the risk of loss of principal. In addition, all investments made with the collateral received are subject to the risks associated with such investments. If such investments lose value, a Fund will have to cover the loss when repaying the collateral.

Any loans of portfolio securities are fully collateralized based on values that are marked-to-market daily. Any securities that a Fund may receive as collateral will not become part of a Fund's investment portfolio at the time of the loan and, in the event of a default by the borrower, the Fund will, if permitted by law, dispose of such collateral except for such part thereof that is a security in which the Fund is permitted to invest. During the time securities are on loan, the borrower will pay a Fund any accrued income on those securities, and the Fund may invest the cash collateral and earn income or receive an agreed-upon fee from a borrower that has delivered cash-equivalent collateral.

Short Sales

The Funds may engage in short sales. Short sales are transactions in which a Fund sells an instrument it does not own in anticipation of a decline in the market value of that instrument. To complete a short sale transaction, a Fund must borrow the instrument to make delivery to the buyer. The Fund then is obligated to replace the instrument borrowed by purchasing it at the market price at the time of replacement. The price at such time may be more or less than the price at which the instrument was sold by the Fund. Until the instrument is replaced, the Fund is required to pay to the lender amounts equal to any interest or dividends which accrue during the period of the loan. To borrow the instrument, the Fund also may be required to pay a premium, which would increase the cost of the instrument sold. There will also be other costs associated with short sales.

A Fund will incur a loss as a result of the short sale if the price of the instrument increases between the date of the short sale and the date on which the Fund replaces the borrowed instrument. Unlike taking a long position in an instrument by purchasing the instrument, where potential losses are limited to the purchase price, short sales have no cap on maximum loss. A Fund will realize a gain if the instrument declines in price between those dates. This result is the opposite of what one would expect from a cash purchase of a long position in an instrument.

Until a Fund replaces a borrowed instrument in connection with a short sale, the Fund will (a) designate on its records as collateral cash or liquid assets at such a level that the designated assets plus any amount deposited with the broker as collateral will equal the current value of the instrument sold short or (b) otherwise cover its short position in accordance with applicable law. The amount designated on the Fund's records will be marked to market daily. This may limit the Fund's investment flexibility, as well as its ability to meet redemption requests or other current obligations.

There is no guarantee that a Fund will be able to close out a short position at any particular time or at an acceptable price. During the time that a Fund is short an instrument, it is subject to the risk that the lender of the instrument will terminate the loan at a time when the Fund is unable to borrow the same instrument from another lender. If that occurs, the Fund may be "bought in" at the price required to purchase the instrument needed to close out the short position, which may be a disadvantageous price. Thus, there is a risk that the Fund may be unable to fully implement its investment strategy due to a lack of available instruments or for some other reason. It is possible that the market value of the instruments a Fund holds in long positions will decline at the same time that the market value of the instruments the Fund has sold short increases, thereby increasing the Fund's potential volatility. Short sales also involve other costs. A Fund must normally repay to the lender an amount equal to any dividends or interest that accrues while the loan is outstanding. In addition, to borrow the instrument, a Fund may be required to pay a premium. A Fund also will incur transaction costs in effecting short sales. The amount of any ultimate gain for a Fund resulting from a short sale will be decreased, and the amount of any ultimate loss will be increased, by the amount of premiums, dividends, interest or expenses the Fund may be required to pay in connection with the short sale.

U.S. Government Securities

Each Fund may invest in U.S. government securities. Securities issued or guaranteed by the U.S. government or its agencies or instrumentalities include U.S. Treasury securities, which are backed by the full faith and credit of the U.S. Treasury and which differ only in their interest rates, maturities, and times of issuance. U.S. Treasury bills have initial maturities of one-year or less; U.S. Treasury notes have initial maturities of one to ten years; and U.S. Treasury bonds generally have initial maturities of greater than ten years. Certain U.S. government securities are issued or guaranteed by agencies or instrumentalities of the U.S. government including, but not limited to, obligations of U.S. government agencies or instrumentalities such as the Federal National Mortgage Association ("Fannie Mae"), the Government National Mortgage Association ("Ginnie Mae"), the Small Business Administration, the Federal Farm Credit Administration, the Federal Home Loan Banks, Banks for Cooperatives (including the Central Bank for Cooperatives), the Federal Land Banks, the Federal Intermediate Credit Banks, the Tennessee Valley Authority, the Export-Import Bank of the United States, the Commodity Credit Corporation, the Federal Financing Bank, the Student Loan Marketing Association, the National Credit Union Administration and the Federal Agricultural Mortgage Corporation ("Farmer Mac").

Some obligations issued or guaranteed by U.S. government agencies and instrumentalities, including, for example, Ginnie Mae pass-through certificates, are supported by the full faith and credit of the U.S. Treasury. Other obligations issued by or guaranteed by federal agencies, such as those securities issued by Fannie Mae, are supported by the discretionary authority of the U.S. government to purchase certain obligations of the federal agency, while other obligations issued by or guaranteed by federal agencies, such as those of the Federal Home Loan Banks, are supported by the right of the issuer to borrow from the U.S. Treasury, while the U.S. government provides financial support to such U.S. government-sponsored federal agencies, no assurance can be given that the U.S. government will always do so, since the U.S. government is not so obligated by law. U.S. Treasury notes and bonds typically pay coupon interest semi-annually and repay the principal at maturity.

INVESTMENT RESTRICTIONS

The Trust has adopted the following investment restrictions as fundamental policies with respect to the Funds. These restrictions cannot be changed with respect to the Funds without the approval of the holders of a majority of each Fund's outstanding voting securities. For the purposes of the 1940 Act, a "majority of outstanding shares" means the vote of the lesser of: (1) 67% or more of the voting securities of the Funds present at the meeting if the holders of more than 50% of each Fund's outstanding voting securities are present or represented by proxy; or (2) more than 50% of the outstanding voting securities of the Funds.

Except with the approval of a majority of the outstanding voting securities, the Funds may not:

1. Purchase the securities of any issuer (other than securities issued or guaranteed by the U.S. Government or any of its agencies or instrumentalities) if, as a result, more than 25% of the Fund's total assets would be invested in the securities of companies whose principal business activities are in the same industry or group of industries.
2. Issue senior securities, except as permitted under the 1940 Act.
3. Borrow money, except as permitted under the 1940 Act.
4. Lend any security or make any other loan except as permitted under the 1940 Act. This means that no more than 33 $\frac{1}{3}$ % of its total assets would be lent to other parties. This limitation does not apply to purchases of debt securities or to repurchase agreements, or to acquisitions of loans, loan participations or other forms of debt instruments, permissible under each Fund's investment policies.
5. Purchase or sell real estate unless acquired as a result of ownership of securities or other instruments (but this shall not prevent the Funds from investing in securities or other instruments backed by real estate, real estate investment trusts or securities of companies engaged in the real estate business).
6. Purchase or sell physical commodities unless acquired as a result of ownership of securities or other instruments (but this shall not prevent the Funds from purchasing or selling options and futures contracts or from investing in securities or other instruments backed by physical commodities).
7. Act as an underwriter of another issuer's securities, except to the extent that the Funds may be considered an underwriter within the meaning of the Securities Act in the disposition of portfolio securities.

If a percentage limitation is adhered to at the time of investment or contract, a later increase or decrease in percentage resulting from any change in value or total or net assets will not result in a violation of such restriction, except that the percentage limitation with respect to the borrowing of money will be observed continuously.

MANAGEMENT OF THE TRUST

Board Responsibilities. The management and affairs of the Trust and its series are overseen by the Board, which elects the officers of the Trust who are responsible for administering the day-to-day operations of the Trust and the Funds. The Board has approved contracts, as described below, under which certain companies provide essential services to the Trust.

The day-to-day business of the Trust, including the management of risk, is performed by third-party service providers, such as the Adviser, the Distributor, and the Administrator. The Board is responsible for overseeing the Trust's service providers and, thus, has oversight responsibility with respect to risk management performed by those service providers. Risk management seeks to identify and address risks, *i.e.*, events or circumstances that could have material adverse effects on the business, operations, shareholder services, investment performance or reputation of the Funds. The Funds and its service providers employ a variety of processes, procedures and controls to identify such events or circumstances, to lessen the probability of their occurrence and/or to mitigate the effects of such events or circumstances if they do occur. Each service provider is responsible for one or more discrete aspects of the Trust's business (*e.g.*, the Adviser is responsible for the day-to-day management of each Fund's portfolio investments) and, consequently, for managing the risks associated with that business. The Board has emphasized to the Funds' service providers the importance of maintaining vigorous risk management.

The Board's role in risk oversight begins before the inception of the Funds, at which time certain of the Funds' service providers present the Board with information concerning the investment objective, strategies, and risks of the Fund as well as proposed investment limitations for the Fund. Additionally, the Adviser will provide the Board with an overview of, among other things, its investment philosophy, brokerage practices, and compliance infrastructure. Thereafter, the Board continues its oversight function as various personnel, including the Trust's Chief Compliance Officer and other service providers such as the Funds' independent registered public accounting firm, make periodic reports to the Audit Committee or to the Board with respect to various aspects of risk management. The Board and the Audit Committee oversee efforts by management and service providers to manage risks to which each Fund may be exposed.

The Board is responsible for overseeing the nature, extent, and quality of the services provided to the Funds by the Adviser receives information about those services at its regular meetings. In addition, on an annual basis (following the initial two-year period), in connection with its consideration of whether to renew the Investment Advisory Agreement with the Adviser, the Board or its designee may meet with the Adviser to review such services. Among other things, the Board regularly considers the Adviser's adherence to each Fund's investment restrictions and compliance with various Fund policies and procedures and with applicable securities regulations. The Board also reviews information about each Fund's performance and each Fund's investments, including, for example, portfolio holdings schedules.

The Trust's Chief Compliance Officer reports regularly to the Board to review and discuss compliance issues and Funds and Adviser risk assessments. At least annually, the Trust's Chief Compliance Officer provides the Board with a report reviewing the adequacy and effectiveness of the Trust's policies and procedures and those of its service providers, including the Adviser. The report addresses the operation of the policies and procedures of the Trust and each service provider since the date of the last report; any material changes to the policies and procedures since the date of the last report; any recommendations for material changes to the policies and procedures; and any material compliance matters since the date of the last report.

The Board receives reports from each Fund's service providers regarding operational risks and risks related to the valuation and liquidity of portfolio securities. Annually, each Fund's independent registered public accounting firm reviews with the Audit Committee its audit of each Fund's financial statements, focusing on major areas of risk encountered by the Funds and noting any significant deficiencies or material weaknesses in each Fund's internal controls. Additionally, in connection with its oversight function, the Board oversees each Fund management's implementation of disclosure controls and procedures, which are designed to ensure that information required to be disclosed by the Trust in its periodic reports with the SEC are recorded, processed, summarized, and reported within the required time periods. The Board also oversees the Trust's internal controls over financial reporting, which comprise policies and procedures designed to provide reasonable assurance regarding the reliability of the Trust's financial reporting and the preparation of the Trust's financial statements.

From their review of these reports and discussions with the Adviser, the Chief Compliance Officer, independent registered public accounting firm and other service providers, the Board and the Audit Committee learn in detail about the material risks of the Funds, thereby facilitating a dialogue about how management and service providers identify and mitigate those risks.

The Board recognizes that not all risks that may affect the Funds can be identified and/or quantified, that it may not be practical or cost-effective to eliminate or mitigate certain risks, that it may be necessary to bear certain risks (such as investment-related risks) to achieve each Fund's goals, and that the processes, procedures and controls employed to address certain risks may be limited in their effectiveness. Moreover, reports received by the Board as to risk management matters are typically summaries of the relevant information. Most of each Fund's investment management and business affairs are carried out by or through the Adviser and other service providers, each of which has an independent interest in risk management but whose policies and the methods by which one or more risk management functions are carried out may differ from the Funds' and each other's in the setting of priorities, the resources available or the effectiveness of relevant controls. As a result of the foregoing and other factors, the Board's ability to monitor and manage risk, as a practical matter, is subject to limitations.

Members of the Board. There are three members of the Board, two of whom are not interested persons of the Trust, as that term is defined in the 1940 Act (the "Independent Trustees"). Mr. Bradley Swenson serves as Chairman of the Board and is an interested person of the Trust and Mr. Steven Norgaard serves as the Trust's Lead Independent Trustee. As Lead Independent Trustee, Mr. Norgaard acts as a spokesperson for the Independent Trustees in between meetings of the Board, serves as a liaison for the Independent Trustees with the Trust's service providers, officers, and legal counsel to discuss ideas informally, and participates in setting the agenda for meetings of the Board and separate meetings or executive sessions of the Independent Trustees.

The Board is comprised of a super-majority (66.6 percent) of Independent Trustees. There is an Audit Committee of the Board that is chaired by an Independent Trustee and comprised solely of Independent Trustees. The Audit Committee chair presides at the Audit Committee meetings, participates in formulating agendas for Audit Committee meetings, and coordinates with management to serve as a liaison between the Independent Trustees and management on matters within the scope of responsibilities of the Audit Committee as set forth in its Board-approved charter. The Trust has determined its leadership structure is appropriate given the specific characteristics and circumstances of the Trust. The Trust made this determination in consideration of, among other things, the fact that the Independent Trustees of the Trust constitute a super-majority of the Board, the number of Independent Trustees that constitute the Board, the amount of assets under management in the Trust, and the number of funds overseen by the Board. The Board also believes that its leadership structure facilitates the orderly and efficient flow of information to the Independent Trustees from management.

Additional information about each Trustee of the Trust is set forth below. The address of each Trustee of the Trust is c/o Paralel Technologies LLC, 1700 Broadway, Suite 1850, Denver, Colorado 80290.

Name and Year of Birth	Position Held with the Trust	Term of Office and Length of Time Served	Principal Occupation(s) During Past 5 Years	Number of Portfolios in Fund Complex Overseen by Trustee ⁽¹⁾	Other Directorships Held by Trustee During Past 5 Years
Independent Trustees					
Kimberly Storms Birth Year: 1972	Trustee	Since 2022	Ms. Storms served at various roles at ALPS Fund Services, Inc. from 1998 through 2020, including as Senior Vice President - Director of Fund Administration (2004-2020) and Senior Vice President - Director of Fund Management (2020). During her tenure, Ms. Storms served as an officer to certain ETF, closed-end and open-end investment companies (1998-2020) and, within the past 5 years, Principal Financial Officer of ALPS Series Trust (2012-2020), Financial Investors Trust (2013-2020), Liberty All-Star Funds (2013-2020), and Cambria ETF Trust (2020).	32	Sterling Capital Funds (Since October 2022)
Steven Norgaard Birth Year: 1964	Trustee	Since 2022	Mr. Norgaard has been an attorney with Steven K. Norgaard, P.C. since 1994.	33 ⁽²⁾	Frontier Funds (6 Funds) (since 2013); SRH Total Return Fund, Inc. (Since 2011)
Interested Trustees and Officers					
Bradley J. Swenson Birth Year: 1972	Trustee, President	Since 2022	Mr. Swenson is President of Paralel Distributors LLC (May 2022 to present) and Chief Compliance Officer of Paralel Technologies LLC (January 2023 to present). He previously served as President of TruePeak Consulting, LLC (August 2021 to December 2023). Mr. Swenson joined ALPS Fund Services, Inc. ("ALPS") in 2004 and served as its President from June 2019 until June 2021. In this role, he served as an officer to certain other closed-end and open-end investment companies. He previously served as the Chief Operating Officer of ALPS (2015-2019). Mr. Swenson also previously served as Chief Compliance Officer to ALPS, its affiliated entities, and to certain ETF, closed-end and open-end investment companies (2004-2015).	32	ALPS Series Trust (March 2021 to March 2022)

- (1) The term "Fund Complex" means two or more registered investment companies that hold themselves out to investors as related companies for purposes of investment and investor services; or have a common investment adviser or that have an investment adviser that is an affiliated person of the investment adviser of any of the other registered investment companies. For the purposes of this table, all series of the Trust (32 funds, including the Funds) are included in the Fund Complex.
- (2) Mr. Norgaard also serves as a Director of the SRH Total Return Fund, Inc. whose investment adviser is the same as the investment adviser of SRH U.S. Quality GARP ETF and SRH REIT Covered Call ETF, two series of the Trust.

Individual Trustee Qualifications. The Trust has concluded that each of the Trustees should serve on the Board because of their ability to review and understand information about the Funds provided to them by management, to identify and request other information they may deem relevant to the performance of their duties, to question management and other service providers regarding material factors bearing on the management and administration of the Funds, and to exercise their business judgment in a manner that serves the best interests of the Funds' shareholders. The Trust has concluded that each of the Trustees should serve as a Trustee based on his or her own experience, qualifications, attributes and skills as described below.

Bradley Swenson. Mr. Swenson has more than 25 years experienced focused on compliance and distribution in the mutual fund industry. Prior to joining Paralel, he spent seventeen years at ALPS in various capacities including, but not limited to, Chief Compliance Officer, Chief Operating Officer and President of ALPS Fund Services and ALPS Distributors. In addition to those roles Mr. Swenson built and led the Fund CCO services division and served as Fund CCO and President to various closed-end, ETF and mutual fund trusts. Mr. Swenson also held various roles at Janus Capital Group and Oppenheimer Funds including Senior Audit Manager and Compliance Manager. Mr. Swenson graduated from the University of Minnesota-Duluth with a B.S. in Accounting. Mr. Swenson holds FINRA Series 3, 6, 7, 24, 26, and 27 licenses.

Steven K. Norgaard. Mr. Norgaard is lead independent trustee of the Trust and is an attorney and certified public accountant. Since 1994, he has been an attorney with the law firm Steven K. Norgaard, P.C. Prior to starting his own law firm, he was an attorney at McDermott, Will & Emery. In addition, he serves as an independent director on the Board of Directors of the SRH Total Return Fund, Inc. and currently serves as audit committee chair. He has also served on the Board of Directors of ATG Trust Company from 2007-2021; and on the Fronter Funds Board of Directors. Mr. Norgaard served on the Board of Directors of Attorneys' Title Guaranty Fund, Inc. from 2012 to 2022. Prior to March 2015, Mr. Norgaard served as an independent director of the Boulder Total Return Fund, Inc., the Denali Fund, Inc., and the First Opportunity Fund, Inc., each a closed-end fund, until those funds completed a merger into the Fund currently known as SRH Total Return Fund, Inc. Mr. Norgaard brings significant financial, accounting, legal, regulatory and investment experience to the Board, as well as other directorship experience.

Kimberly Storms. Ms. Storms is the chair of the Audit Committee of the Board of Trustees and is the Trust's Audit Committee Financial Expert. Ms. Storms has more than 25 years of experience concentrated on mutual fund back office and accounting operations. Ms. Storms served in various roles at ALPS Fund Services from 1998 through 2020, including as Senior Vice President - Director of Fund Administration. She graduated with a B.S. in Finance from the University of Louisiana. Ms. Storms brings significant experience from her prior time serving as an executive officer of several large fund complexes, as well as her knowledge in the accounting, investment and regulatory fields.

In its periodic assessment of the effectiveness of the Board, the Board considers the complementary individual skills and experience of the individual Trustees primarily in the broader context of the Board's overall composition so that the Board, as a body, possesses the appropriate (and appropriately diverse) skills and experience to oversee the business of the funds.

Board Committees. The Board has established the following standing committees of the Board:

Audit Committee. The Board has a standing Audit Committee that is composed of each of the Independent Trustees of the Trust. The Audit Committee operates under a written charter approved by the Board. The principal responsibilities of the Audit Committee include: recommending which firm to engage as the Funds' independent registered public accounting firm and whether to terminate this relationship; reviewing the independent registered public accounting firm's compensation, the proposed scope and terms of its engagement, and the firm's independence; pre-approving audit and non-audit services provided by the Funds' independent registered public accounting firm to the Trust and certain other affiliated entities; serving as a channel of communication between the independent registered public accounting firm and the Trustees; reviewing the results of each external audit, including any qualifications in the independent registered public accounting firm's opinion, any related management letter, management's responses to recommendations made by the independent registered public accounting firm in connection with the audit, reports submitted to the Committee by the internal auditing department of the Trust's Administrator that are material to the Trust as a whole, if any, and management's responses to any such reports; reviewing the Funds' audited financial statements and considering any significant disputes between the Trust's management and the independent registered public accounting firm that arose in connection with the preparation of those financial statements; considering, in consultation with the independent registered public accounting firm and the Trust's senior internal accounting executive, if any, the independent registered public accounting firms' report on the adequacy of the Trust's internal financial controls; reviewing, in consultation with the Funds' independent registered public accounting firm, major changes regarding auditing and accounting principles and practices to be followed when preparing the Funds' financial statements; and other audit related matters.

The Audit Committee also serves as the Qualified Legal Compliance Committee (“QLCC”) for the Trust for the purpose of compliance with Rules 205.2(k) and 205.3(c) of the Code of Federal Regulations, regarding alternative reporting procedures for attorneys retained or employed by an issuer who appear and practice before the SEC on behalf of the issuer (the “issuer attorneys”). An issuer attorney who becomes aware of evidence of a material violation by the Trust, or by any officer, director, employee, or agent of the Trust, may report evidence of such material violation to the QLCC as an alternative to the reporting requirements of Rule 205.3(b) (which requires reporting to the chief legal officer and potentially “up the ladder” to other entities).

Nominating Committee. The Board has a standing Nominating Committee that is composed of each of the Independent Trustees of the Trust. The Nominating Committee operates under a written charter approved by the Board. The principal responsibility of the Nominating Committee is to consider, recommend and nominate candidates to fill vacancies on the Trust’s Board, if any. The Nominating Committee generally will not consider nominees recommended by shareholders. The Nominating Committee meets periodically, as necessary.

Principal Officers of the Trust

The officers of the Trust conduct and supervise its daily business. The address of each officer of the Trust is c/o Paralel Technologies LLC, 1700 Broadway, Suite 1850, Denver, Colorado 80290. Additional information about the Trust’s officers is as follows:

Name and Year of Birth	Position(s) Held with the Trust	Term of Office and Length of Time Served	Principal Occupation(s) During Past 5 Years
Brenna Fudjack, 1986	Chief Compliance Officer	Indefinite term; since 2023	Ms. Fudjack joined Paralel Technologies LLC as Deputy Chief Compliance officer in 2023. Prior to her current role, Ms. Fudjack served as Manager, Risk & Financial Advisory for Deloitte & Touche LLP from 2022-2023; Director of Compliance for Perella Weinberg Partners Capital Management LP / Agility from 2018-2022; Compliance Officer for Shelton Capital Management from 2017-2018; and Compliance Manager among other compliance roles for ALPS Fund Services, Inc. from 2010-2017.
Nicholas Austin, 1981	Treasurer	Indefinite term; since 2023	Mr. Austin joined Paralel Technologies, LLC as Senior Controller in 2022. Prior to his current role, Mr. Austin served as Vice President/Fund Controller for SS&C ALPS from 2018 until 2022, and as Chief Financial Officer of Champion Medical Center from 2016 until 2018.
Nicholas Adams, 1983	Secretary	Indefinite term; since 2025	Mr. Adams joined Paralel Technologies LLC as Investment Counsel in 2025. Prior to his current role, Mr. Adams served as Principal Legal Counsel for SS&C ALPS from 2022 – 2024, and associate counsel for Arnold, Newbold, Sollars and Hollins, P.C. from 2020 – 2022 and Stanziola Estate Law from 2019-2020.

Trustee Ownership of Shares. The Funds are required to show the dollar amount ranges of each Trustee’s “beneficial ownership” of Shares and each other series of the Trust as of the end of the most recently completed calendar year. Dollar amount ranges disclosed are established by the SEC. “Beneficial ownership” is determined in accordance with Rule 16a-1(a)(2) under the Securities and Exchange Act of 1934 (the “Exchange Act”).

As of the date of this SAI, no Trustees owned Shares of the Funds.

Board Compensation. The Independent Trustees each receive a fee of \$12,500 per quarter , a special meeting fee of \$2,500, as well as reimbursement for reasonable travel, lodging and other expenses in connection with attendance at meetings. The Trust has no pension or retirement plan.

Independent Trustee fees are paid by the adviser of each series of the Trust through the applicable adviser’s unitary management fee, and not by the Funds. Trustee compensation does not include reimbursed out-of-pocket expenses in connection with attendance at meetings.

The following table shows the compensation anticipated to be earned by each Trustee during the initial fiscal year of the Funds.

Name	Aggregate Compensation From Funds*	Total Compensation From Fund Complex Paid to Trustees*
Interested Trustees		
Bradley J. Swenson	\$0	\$0
Independent Trustees		
Kimberly Storms	\$4,379	\$50,000
Steven Norgaard	\$4,379	\$50,000

* Estimated for the initial fiscal year of the Funds.

+ Paid by the Adviser, not the Funds, from its unitary management fee.

PRINCIPAL SHAREHOLDERS, CONTROL PERSONS, AND MANAGEMENT OWNERSHIP

A principal shareholder is any person who owns of record or beneficially 5% or more of the outstanding Shares of a Fund. A control person is a shareholder that owns beneficially or through controlled companies more than 25% of the voting securities of a company or acknowledges the existence of control. Shareholders owning voting securities in excess of 25% may determine the outcome of any matter affecting and voted on by shareholders of a Fund. The Depository Trust Company (“DTC”) or its nominee is the record owner of all outstanding shares and is recognized as the owner of all shares for all purposes. Investors owning shares are beneficial owners as shown on the records of DTC or its participants. As of the date of this SAI, no Trustees and officers of the Trust owned Shares of the Funds.

CODES OF ETHICS

The Trust, the Adviser and the Distributor (as defined under “The Distributor”) have each adopted codes of ethics pursuant to Rule 17j-1 of the 1940 Act. These codes of ethics are designed to prevent affiliated persons of the Trust, the Adviser and the Distributor from engaging in deceptive, manipulative or fraudulent activities in connection with securities held or to be acquired by the Funds (which may also be held by persons subject to the codes of ethics). Each Code of Ethics permits personnel subject to that Code of Ethics to invest in securities for their personal investment accounts, subject to certain limitations, including limitations related to securities that may be purchased or held by the Funds.

There can be no assurance that the codes of ethics will be effective in preventing such activities. Each code of ethics may be examined at the office of the SEC in Washington, D.C. or on the Internet at the SEC's website at <http://www.sec.gov>.

PROXY VOTING POLICIES

The Funds have delegated proxy voting responsibilities to the Adviser, subject to the Board's oversight. In delegating proxy responsibilities, the Board has directed that proxies be voted consistent with the Funds' and their respective shareholders' best interests and in compliance with all applicable proxy voting rules and regulations. The Adviser has adopted the Institutional Shareholder Services Inc. Proxy Voting Guidelines as part of the Adviser's proxy voting policies for this purpose ("Proxy Voting Policies") and to assist with voting proxies in a timely manner and making voting recommendations under guidelines adopted by the Adviser. A copy of the Adviser's Proxy Voting Policies are set forth in Appendix A to this SAI. The Trust's Chief Compliance Officer is responsible for monitoring the effectiveness of the Proxy Voting Policies. The Proxy Voting Policies have been approved by the Trust as the policies and procedures that the Adviser will use when voting proxies on behalf of a Fund.

The Proxy Voting Policies address, among other things, material conflicts of interest that may arise between the interests of the Funds and the interests of the Adviser. The Proxy Voting Policies will ensure that all issues brought to shareholders are analyzed in light of the Adviser's fiduciary responsibilities.

When available, information on how the Funds voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 will be available (1) without charge, upon request, by calling the Funds at 1.877.421.5078 and (2) on the SEC's website at www.sec.gov.

INVESTMENT ADVISER

Investment Adviser

Vulcan Value Partners, LLC is a Delaware limited liability company located at Three Protective Center, 2801 Highway 280 South, Suite 300, Birmingham, AL 35223, is an SEC registered investment adviser. Pursuant to the Investment Advisory Agreement (the "Advisory Agreement"), the Vulcan Value Partners Fund and the Vulcan Value Partners Small Cap Fund pay the Adviser an annual management fee of 0.85% and 1.00%, respectively, based on the Fund's average daily net assets. The management fee is calculated daily and paid on a monthly basis. The Predecessor Vulcan Value Partners Fund and the Predecessor Vulcan Value Partners Small Cap Fund paid the Adviser an annual management fee of 1.00% and 1.15%, respectively.

As described in the Prospectus under "Fees and Expenses of Each Fund," the Adviser has contractually agreed to limit the total amount of the Management Fee and Other Expenses that it is entitled to receive from each Fund through at least one year from the date that the applicable Fund commences operations.

With respect to the Vulcan Value Partners Fund and Vulcan Value Partners Small Cap Fund's Investor Class, to the extent total annual fund operating expenses (exclusive of Acquired Fund Fees and Expenses (if any), brokerage expenses, interest expense, taxes and extraordinary expenses) exceed 1.10% and 1.15% of such Fund's average daily net assets for a particular fiscal year of the Fund, the Adviser will reduce the Management Fee and/or Other Expenses otherwise payable to the Adviser with respect to such Fund for such fiscal year by an amount equal to such excess, and/or the Adviser shall reimburse the Fund by the amount of such excess. This fee waiver and reimbursement agreement for each Fund (the "Investor Class Shares Expense Agreement") shall continue for at least one year from the date the Fund commences operations. The Adviser will be permitted to recapture expenses it has borne through the Investor Class Shares Expense Agreement to the extent that a Fund's expenses in later periods fall below the annual rates set forth in the Investor Class Shares Expense Agreement provided, however, that such recapture payments do not cause the Fund's expense ratio (after recapture) to exceed the lesser of (i) the expense cap then in effect at the time of the waiver and (ii) the expense cap then in effect at the time of the recapture. Notwithstanding the foregoing, the Funds will not pay any such deferred fees and expenses more than thirty-six months after the date on which the fee and expenses were deferred. The Adviser may not discontinue or modify this waiver prior to its initial expiration without the approval by the Board of Trustees.

In addition, with respect to the Funds' Institutional Class, to the extent the total annual fund operating expenses (exclusive of Acquired Fund Fees and Expenses (if any), brokerage expenses, interest expense, taxes and extraordinary expenses) exceed 0.85% and 1.00% of the Vulcan Value Partners Fund's and the Vulcan Value Small Cap Fund's average daily net assets, respectively for a particular fiscal year of the Fund, the Adviser will reduce the Management Fee and/or Other Expenses otherwise payable to the Adviser with respect to such Fund for such fiscal year by an amount equal to such excess, and/or the Adviser shall reimburse the Fund by the amount of such excess. This fee waiver and reimbursement agreement for each Fund (the "Institutional Share Class Expense Agreement") shall continue for at least one year from the date the Fund commences operations. The Adviser will be permitted to recapture expenses it has borne through the Institutional Share Class Expense Agreement to the extent that a Fund's expenses in later periods fall below the annual rates set forth in the Institutional Share Class Expense Agreement provided, however, that such recapture payments do not cause the Fund's expense ratio (after recapture) to exceed the lesser of (i) the expense cap in effect at the time of the waiver and (ii) the expense cap then in effect at the time of the recapture. Notwithstanding the foregoing, the Funds will not pay any such deferred fees and expenses more than thirty-six months after the date on which the fee and expenses were deferred. The Adviser may not discontinue or modify this waiver prior to its initial expiration without the approval of the Board of Trustees.

The table below shows the advisory fees paid by the Predecessor Funds for the fiscal periods ended April 30, as applicable to each Fund:

Fund	2025	2024	2023
Predecessor Vulcan Value Partners Fund			
Gross Advisory Fees	\$5,124,874	\$8,125,821	\$10,303,874
Waiver/Reimbursement	(\$1,257,958)	(\$1,693,410)	(\$2,092,143)
Net Advisory Fees	\$3,866,916	\$6,432,411	\$8,211,731
Predecessor Vulcan Value Partners Small Cap Fund			
Gross Advisory Fees	\$2,426,304	\$4,290,227	\$7,071,928
Waiver/Reimbursement	(\$749,921)	(\$1,020,502)	(\$1,502,425)
Net Advisory Fees	\$1,676,383	\$3,269,725	\$5,569,503

The Investment Advisory Agreement with respect to the Funds will continue in force for an initial period of two years. Thereafter, the Investment Advisory Agreement will be renewable from year to year with respect to the Funds, so long as its continuance is approved at least annually (1) by the vote, cast in person at a meeting called for that purpose, of a majority of those Trustees who are not "interested persons" of the Adviser or the Trust; and (2) by the majority vote of either the full Board or the vote of a majority of the outstanding Shares of the Funds. The Investment Advisory Agreement automatically terminates on assignment and is terminable on a 60-day written notice either by the Trust or the Adviser.

The Adviser shall not be liable to the Trust or any shareholder for anything done or omitted by it, except acts or omissions involving willful misfeasance, bad faith, gross negligence or reckless disregard of the duties imposed upon it by its agreement with the Trust or for any losses that may be sustained in the purchase, holding or sale of any security.

PORTFOLIO MANAGERS

Each Fund is managed by C.T. Fitzpatrick, Stephen Simmons, Colin Casey, Taylor Cline and David Shelton (the “Portfolio Managers”). This section includes information about the Portfolio Managers, including information about compensation, other accounts managed, and the dollar range of Shares owned.

Compensation

Mr. Fitzpatrick is the majority equity owner of the Adviser and is entitled to receive distributions from the Adviser if and when made to the equity owners of the Adviser, pro rata in proportion to his equity interest. He does not receive a base salary and is not anticipated to receive a bonus.

Mr. Simmons, as a Principal, is entitled to receive distributions from the Adviser if and when made to the equity owners of the Adviser, pro rata in proportion to his equity interest. He does receive a base salary and has the potential for a bonus.

Mr. Casey, as a Principal, is entitled to receive distributions from the Adviser if and when made to the equity owners of the Adviser, pro rata in proportion to his equity interest. He does receive a base salary and has the potential for a bonus.

Mr. Cline, as a Principal, is entitled to receive distributions from the Adviser if and when made to the equity owners of the Adviser, pro rata in proportion to his equity interest. He does receive a base salary and has the potential for a bonus.

Mr. Shelton, as a Principal, is entitled to receive distributions from the Adviser if and when made to the equity owners of the Adviser, pro rata in proportion to his equity interest. He does receive a base salary and has the potential for a bonus.

Share Ownership

The Funds are required to show the dollar ranges of the Portfolio Managers’ “beneficial ownership” of Shares as of the end of the most recently completed fiscal year or a more recent date for a new portfolio manager. Dollar amount ranges disclosed are established by the SEC. “Beneficial ownership” is determined in accordance with Rule 16a-1(a)(2) under the 1934 Act. The following reflects the level of investment by the Portfolio Managers in the Predecessor Funds.

Dollar Value of Shares Owned Beneficially as of April 30, 2025		
Portfolio Manager	Vulcan Value Partners Fund	Vulcan Value Partners Small Cap Fund
C. T. Fitzpatrick	\$500,001 - \$1,000,000	\$100,001 - \$500,000
Stephen Simmons	\$100,001 - \$500,000	\$500,001 - \$1,000,000
Colin Casey	\$100,001 - \$500,000	None
Taylor Cline	\$100,001 - \$500,000	< \$100,000
David Shelton	\$100,001 - \$500,000	< \$100,000

Other Accounts

In addition to the Funds, the Portfolio Managers managed the following other accounts as of April 30, 2025, none of which were subject to a performance fee:

Portfolio Manager

Portfolio Manager	Registered Investment Companies		Other Pooled Investment Vehicles		Other Accounts	
	Number of Accounts	Total Assets in the Accounts (in millions)	Number of Accounts	Total Assets in the Accounts (in millions)	Number of Accounts	Total Assets in the Accounts (in millions)
C.T. Fitzpatrick	0	\$0	5	\$608	292	\$5,603
Stephen Simmons	0	\$0	5	\$608	292	\$5,603
Colin Casey	0	\$0	5	\$608	292	\$5,603
Taylor Cline	0	\$0	5	\$608	292	\$5,603
David Shelton	0	\$0	5	\$608	292	\$5,603

Conflicts of Interest

The Portfolio Managers' management of "other accounts" may give rise to potential conflicts of interest in connection with their management of the Fund's investments, on the one hand, and the investments of the other accounts, on the other. The other accounts may have the same investment objective as the Funds. Therefore, a potential conflict of interest may arise as a result of the identical investment objective, whereby a the Portfolio Manager could favor one account over another. Another potential conflict could include the Portfolio Manager's knowledge about the size, timing and possible market impact of Fund trades, whereby the Portfolio Manager could use this information to the advantage of other accounts and to the disadvantage of the Funds.

THE DISTRIBUTOR

The Trust and Paralel Distributors LLC (the "Distributor") are parties to a distribution agreement ("Distribution Agreement"), whereby the Distributor acts as principal underwriter for each series of the Trust, including the Funds, and distributes Shares. Shares are continuously offered for sale by the Distributor. The principal business address of the Distributor is 1700 Broadway, Suite 1850, Denver, CO 80290.

The Distributor is registered as a broker-dealer under the Securities Exchange Act of 1934 and each state's securities laws and is a member of the Financial Industry Regulatory Authority ("FINRA"). The offering of each Fund's shares is continuous. The Underwriting Agreement provides that the Distributor, as agent in connection with the distribution of a Fund's shares, will use reasonable efforts to facilitate the sale of the Fund's shares.

The Distribution Agreement will continue for two years from its effective date and is renewable annually thereafter. The continuance of the Distribution Agreement must be specifically approved at least annually (i) by the vote of the Trustees or by a vote of the shareholders of the Funds and (ii) by the vote of a majority of the Independent Trustees who have no direct or indirect financial interest in the operations of the Distribution Agreement or any related agreement, cast in person at a meeting called for the purpose of voting on such approval. The Distribution Agreement is terminable without penalty by the Trust on 60 days' written notice when authorized either by majority vote of its outstanding voting Shares or by a vote of a majority of its Board (including a majority of the Independent Trustees), or by the Distributor on 60 days' written notice, and will automatically terminate in the event of its assignment. The Distribution Agreement provides that in the absence of willful misfeasance, bad faith or gross negligence on the part of the Distributor, or reckless disregard by it of its obligations thereunder, the Distributor shall not be liable for any action or failure to act in accordance with its duties thereunder.

Intermediary Compensation. The Funds or the Adviser may pay certain broker dealers, banks and other financial intermediaries ("Intermediaries") for certain activities related to the Funds, including participation in activities that are designed to make Intermediaries more knowledgeable about exchange traded products, including the Funds, or for other activities, such as marketing and educational training or support.

Such compensation may be paid to Intermediaries that provide services to the Funds, including marketing and education support (such as through conferences, webinars and printed communications). The Adviser periodically assess the advisability of continuing to make these payments. Payments to an Intermediary may be significant to the Intermediary, and amounts that Intermediaries pay to your adviser, broker or other investment professional, if any, may also be significant to such adviser, broker or investment professional. Because an Intermediary may make decisions about what investment options it will make available or recommend, and what services to provide in connection with various products, based on payments it receives or is eligible to receive, such payments create conflicts of interest between the Intermediary and its clients. For example, these financial incentives may cause the Intermediary to recommend the Funds over other investments. The same conflict of interest exists with respect to your financial adviser, broker or investment professional if he or she receives similar payments from his or her Intermediary firm.

Intermediary information is current only as of the date of this SAI. Please contact your adviser, broker, or other investment professional for more information regarding any payments his or her Intermediary firm may receive. Any payments made by the Adviser or their affiliates to an Intermediary may create the incentive for an Intermediary to encourage customers to buy Shares.

If you have any additional questions, please call 1.877.421.5078.

THE ADMINISTRATOR, CUSTODIAN, AND TRANSFER AGENT

Paralel Technologies LLC (“PTL”), located at 1700 Broadway Suite 1850, Denver, Colorado 80290 serves as the Funds’ administrator and fund accountant. PTL is the parent company of Paralel Distributors LLC, the Funds’ Distributor.

Pursuant to an Administration and Fund Accounting Agreement between the Trust and PTL, PTL provides the Trust with administrative and management services (other than investment advisory services) and accounting services, including portfolio accounting services, tax accounting services and furnishing financial reports. In this capacity, PTL does not have any responsibility or authority for the management of the Funds, the determination of investment policy, or for any matter pertaining to the distribution of Shares. As compensation for the administration, accounting and management services, the Adviser pays PTL a fee based on the Funds’ average daily net assets, subject to a minimum annual fee. PTL also is entitled to certain out-of-pocket expenses for the services mentioned above.

Pursuant to a Custody Agreement, State Street Bank and Trust, Co.(the “Custodian”), serves as the Custodian of the Funds’ assets. The Custodian holds and administers the assets in each Fund’s portfolio. Pursuant to the Custody Agreement, the Custodian receives an annual fee from the Funds based on the Funds’ total average daily net assets, subject to a minimum annual fee, and certain settlement charges. The Custodian also is entitled to certain out-of-pocket expenses.

Pursuant to a Transfer Agency Agreement, Paralel Technologies LLC (in such capacity, the “Transfer Agent”) serves as Transfer Agent for the Funds. Pursuant to the Transfer Agency Agreement, the Transfer Agent receives an annual fee from the Funds.

The Funds were responsible for paying the amounts in the table below to ALPS Fund Services, Inc. for administrative services for the periods ended April 30, as applicable to each Predecessor Fund:

Fund	2025	2024	2023
Predecessor Vulcan Value Partners Fund	\$278,166	\$ 315,789	\$344,740
Predecessor Vulcan Value Partners Small Cap Fund	\$119,902	\$ 153,754	\$208,149

LEGAL COUNSEL

Thompson Hine LLP, located at 41 South High Street, Suite 1700, Columbus, Ohio 43215 serves as legal counsel for the Trust.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Cohen & Company, Ltd. serves as the independent registered public accounting firm for the Funds. Its services include auditing the Funds’ financial statements. Cohen & Co Advisory, LLC, an affiliate of Cohen & Company, Ltd., provides tax services as requested.

PORTFOLIO HOLDINGS DISCLOSURE POLICIES AND PROCEDURES

The Board has adopted a policy regarding the disclosure of information about each Fund’s security holdings. Each Fund’s entire portfolio holdings are publicly disseminated each quarter and may be available through financial reporting and news services, including publicly available internet web sites. In addition, the composition of the Deposit Securities (as defined below) is publicly disseminated quarterly.

DESCRIPTION OF SHARES

The Declaration of Trust authorizes the issuance of an unlimited number of funds and Shares. Each Share represents an equal proportionate interest in the Funds with each other Share. Shares are entitled upon liquidation to a pro rata share in the net assets of the Funds. Shareholders have no preemptive rights. The Declaration of Trust provides that the Trustees may create additional series or classes of Shares. All consideration received by the Trust for shares of any additional funds and all assets in which such consideration is invested would belong to that fund and would be subject to the liabilities related thereto. Share certificates representing Shares will not be issued. Shares, when issued, are fully paid and non-assessable.

Each Share has one vote with respect to matters upon which a shareholder vote is required, consistent with the requirements of the 1940 Act and the rules promulgated thereunder. Shares of all funds of the Trust vote together as a single class, except that if the matter being voted on affects only a particular fund it will be voted on only by that fund and if a matter affects a particular fund differently from other funds, that fund will vote separately on such matter. As a Delaware statutory trust, the Trust is not required, and does not intend, to hold annual meetings of shareholders. Approval of shareholders will be sought, however, for certain changes in the operation of the Trust and for the election of Trustees under certain circumstances. Upon the written request of shareholders owning at least 10% of the Trust's Shares, the Trust will call for a meeting of shareholders to consider the removal of one or more Trustees and other certain matters. In the event that such a meeting is requested, the Trust will provide appropriate assistance and information to the shareholders requesting the meeting.

Under the Declaration of Trust, the Trustees have the power to liquidate the Funds without shareholder approval. While the Trustees have no present intention of exercising this power, they may do so if the Funds fail to reach a viable size within a reasonable amount of time or for such other reasons as may be determined by the Board.

LIMITATION OF TRUSTEE LIABILITY

The Second Amended and Restated Declaration of Trust ("Declaration of Trust") provides that a Trustee shall be liable only for his or her own willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of the office of Trustee, and shall not be liable for errors of judgment or mistakes of fact or law. The Trustees shall not be responsible or liable in any event for any neglect or wrong-doing of any officer, agent, employee, adviser or principal underwriter of the Trust, nor shall any Trustee be responsible for the act or omission of any other Trustee. The Declaration of Trust also provides that the Trust shall indemnify each person who is, or has been, a Trustee, officer, employee or agent of the Trust, any person who is serving or has served at the Trust's request as a Trustee, officer, trustee, employee or agent of another organization in which the Trust has any interest as a shareholder, creditor or otherwise to the extent and in the manner provided in the Amended and Restated By-laws. However, nothing in the Declaration of Trust shall protect or indemnify a Trustee against any liability for his or her willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of the office of Trustee. Nothing contained in this section attempts to disclaim a Trustee's individual liability in any manner inconsistent with the federal securities laws.

BROKERAGE TRANSACTIONS

The policy of the Trust regarding purchases and sales of securities for the Funds is that primary consideration will be given to obtaining the most favorable prices and efficient executions of transactions. Consistent with this policy, when securities transactions are effected on a stock exchange, the Trust's policy is to pay commissions which are considered fair and reasonable without necessarily determining that the lowest possible commissions are paid in all circumstances. The Trust believes that a requirement always to seek the lowest possible commission cost could impede effective portfolio management and preclude the Funds from obtaining a high quality of brokerage and research services. In seeking to determine the reasonableness of brokerage commissions paid in any transaction, the Adviser will rely upon its experience and knowledge regarding commissions generally charged by various brokers and on its judgment in evaluating the brokerage services received from the broker effecting the transaction. Such determinations are necessarily subjective and imprecise, as in most cases, an exact dollar value for those services is not ascertainable. The Trust has adopted policies and procedures that prohibit the consideration of sales of Shares as a factor in the selection of a broker or dealer to execute its portfolio transactions.

The Adviser owes a fiduciary duty to its clients to seek to provide best execution on trades effected. In selecting a broker-dealer for each specific transaction, the Adviser chooses the broker-dealer deemed most capable of providing the services necessary to obtain the most favorable execution. "Best execution" is generally understood to mean the most favorable cost or net proceeds reasonably obtainable under the circumstances. The full range of brokerage services applicable to a particular transaction may be considered when making this judgment, which may include, but is not limited to: liquidity, price, commission, timing, aggregated trades, capable floor brokers or traders, competent block trading coverage, ability to position, capital strength and stability, reliable and accurate communications and settlement processing, use of automation, knowledge of other buyers or sellers, arbitrage skills, administrative ability, underwriting and provision of information on a particular security or market in which the transaction is to occur. The specific criteria will vary depending upon the nature of the transaction, the market in which it is executed, and the extent to which it is possible to select from among multiple broker-dealers. The Adviser will also use electronic crossing networks ("ECNs") when appropriate.

The Adviser may use each Fund's assets for, or participate in, third-party soft dollar arrangements, in addition to receiving proprietary research from various full-service brokers, the cost of which is bundled with the cost of the broker's execution services. The Adviser does not "pay up" for the value of any such proprietary research. Section 28(e) of the Exchange Act permits the Adviser, under certain circumstances, to cause the Funds to pay a broker or dealer a commission for effecting a transaction in excess of the amount of commission another broker or dealer would have charged for effecting the transaction in recognition of the value of brokerage and research services provided by the broker or dealer. The Adviser may receive a variety of research services and information on many topics, which it can use in connection with its management responsibilities with respect to the various accounts over which it exercises investment discretion or otherwise provides investment advice. The research services may include qualifying order management systems, portfolio attribution and monitoring services and computer software and access charges which are directly related to investment research. Accordingly, the Funds may pay a broker commission higher than the lowest available in recognition of the broker's provision of such services to the Adviser, but only if the Adviser determines the total commission (including the soft dollar benefit) is comparable to the best commission rate that could be expected to be received from other brokers. The amount of soft dollar benefits received depends on the amount of brokerage transactions effected with the brokers. A conflict of interest exists because there is an incentive to: 1) cause clients to pay a higher commission than the firm might otherwise be able to negotiate; 2) cause clients to engage in more securities transactions than would otherwise be optimal; and 3) only recommend brokers that provide soft dollar benefits.

The Adviser faces a potential conflict of interest when it uses client trades to obtain brokerage or research services. This conflict exists because the Adviser is able to use the brokerage or research services to manage client accounts without paying cash for such services, which reduces the Adviser's expenses to the extent that the Adviser would have purchased such products had they not been provided by brokers. Section 28(e) permits the Adviser to use brokerage or research services for the benefit of any account it manages. Certain accounts managed by the Adviser may generate soft dollars used to purchase brokerage or research services that ultimately benefit other accounts managed by the Adviser, effectively cross subsidizing the other accounts managed by the Adviser that benefit directly from the product. The Adviser may not necessarily use all of the brokerage or research services in connection with managing a Fund whose trades generated the soft dollars used to purchase such products.

The Funds may deal with affiliates in principal transactions to the extent permitted by exemptive order or applicable rule or regulation.

The table below shows the aggregate brokerage commissions paid by the Predecessor Funds for the fiscal periods ended April 30:

Fund	2025	2024	2023
Predecessor Vulcan Value Partners Fund	\$233,950	\$226,505	\$363,354
Predecessor Vulcan Value Partners Small Cap Fund	\$451,795	\$494,586	\$1,295,739

Directed Brokerage. Each Fund is also required to identify any brokerage transactions during its most recent fiscal year that were directed to a broker because of research services provided, along with the amount of any such transactions and any related commissions paid by the Funds. The following table shows the amount of any such transactions and related commissions paid by the Predecessor Funds for research services for the fiscal year ended April 30, 2025:

Fund	Commissions	Transactions
Predecessor Vulcan Value Partners Fund	\$N/A	\$N/A
Predecessor Vulcan Partners Fund Small Cap Fund	\$N/A	\$N/A

Brokerage with Fund Affiliates. The Funds may execute brokerage or other agency transactions through registered broker-dealer affiliates of the Fund, the Adviser or the Distributor for a commission in conformity with the 1940 Act, the Exchange Act and rules promulgated by the SEC. These rules require that commissions paid to the affiliate by the Funds for exchange transactions not exceed "usual and customary" brokerage commissions. The rules define "usual and customary" commissions to include amounts which are "reasonable and fair compared to the commission, fee or other remuneration received or to be received by other brokers in connection with comparable transactions involving similar securities being purchased or sold on a securities exchange during a comparable period of time." The Trustees, including those who are not "interested persons" of the Fund, have adopted procedures for evaluating the reasonableness of commissions paid to affiliates and review these procedures periodically.

Securities of “Regular Broker-Dealers.” The Funds are required to identify any securities of its “regular brokers and dealers” (as such term is defined in the 1940 Act) that it may hold at the close of its most recent fiscal year. “Regular brokers or dealers” of the Funds are the ten brokers or dealers that, during the most recent fiscal year: (i) received the greatest dollar amounts of brokerage commissions from the Funds’ portfolio transactions; (ii) engaged as principal in the largest dollar amounts of portfolio transactions of the Funds; or (iii) sold the largest dollar amounts of Shares.

PORTFOLIO TURNOVER RATE

Portfolio turnover may vary from year to year, as well as within a year. High turnover rates are likely to result in comparatively greater brokerage expenses. The overall reasonableness of brokerage commissions is evaluated by the Adviser based upon its knowledge of available information as to the general level of commissions paid by other institutional investors for comparable services.

For the fiscal year ended April 30, the Predecessor Funds’ portfolio turnover rates were:

Fund	2025	2024	2023
Vulcan Value Partners Fund	56%	32%	40%
Vulcan Value Partners Small Cap Fund	29%	33%	26%

PURCHASE AND REDEMPTION OF SHARES

Paralel Distributors LLC (the “Transfer Agent”) will maintain an account for each shareholder upon which the registration and transfer of shares are recorded, and any transfers shall be reflected by bookkeeping entry, without physical delivery. Confirmations of each purchase, exchange or redemption are sent to each shareholder. Quarterly statements of account are sent which include shares purchased as a result of a reinvestment of Fund distributions. The Transfer Agent will require that a shareholder provide requests in writing, accompanied by a valid signature guarantee form, when changing certain information in an account (i.e., wiring instructions, telephone privileges, etc.).

The Vulcan Funds retain the right to limit inflows into the Vulcan Funds.

Share Classes

Each Fund currently offers two classes of shares: Investor Class and Institutional Class shares. The initial share class of the Predecessor Funds was redesignated as Investor Class shares effective April 23, 2019.

The minimum initial and subsequent investment in each Fund is set forth in the Prospectus.

Purchasing Shares

Shares of each Fund are sold in a continuous offering and may be purchased on any business day through authorized investment dealers or directly from the Fund.

Stock Certificates and Confirmations

The Funds do not generally issue stock certificates representing shares purchased. Confirmations of the opening of an account and of all subsequent transactions in the account are forwarded by the Funds to the shareholder’s address of record.

Anti-Money Laundering Program

The Trust has established an Anti-Money Laundering Compliance Program (the “Program”) as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (“USA PATRIOT Act”). To ensure compliance with this law, the Trust’s Program provides for the development of practices, procedures and controls, designation of anti-money laundering compliance officers, and an ongoing training program (either by the Adviser or its appropriate delegatee, including service providers) to determine the effectiveness of the Program. Procedures to implement the Program include, but are not limited to, determining that the Trust’s Distributor and Transfer Agent have established proper anti-money laundering procedures, are reporting suspicious and/or fraudulent activity and are carrying out a complete and thorough review of all new account opening applications. The Trust will not transact business with any person or entity whose identity cannot be adequately verified under the provisions of the USA PATRIOT Act.

Each Fund may be required to “freeze” the account of a shareholder if the shareholder appears to be involved in suspicious activity or if certain account information matches information on government lists of known terrorist or other suspicious persons. Each Fund may also be required to transfer the account or proceeds of the account to a government agency.

Redeeming Shares

Signature Guarantees. A signature guarantee of each shareholder on an account is required to redeem shares if a shareholder requests (i) redemption proceeds be sent to an address or bank other than that on record with the applicable Fund or (ii) proceeds be made payable to someone other than the shareholder(s) of record.

Signature guarantees are designed to protect both the shareholder and the Funds from fraud. Signature guarantees can be obtained from most banks, credit unions or savings associations, or from broker/dealers, municipal securities broker/dealers, government securities broker/dealers, national securities exchanges, registered securities exchanges, or clearing agencies deemed eligible by the SEC. The Funds do not accept signatures guaranteed by a notary public.

Additional Documentation. Additional documents are required for certain types of shareholders, such as corporations, partnerships, executors, Trustees, administrators, or guardians. The Funds’ transfer agent requires documents from entities to identify individuals possessing authority to redeem shares from the Funds. The documentation may include corporate resolutions, partnership agreements, trust instruments or plans that give such authority to the individual.

Redemption In-Kind. The Funds have elected to be subject to Rule 18f-1 under the 1940 Act, which obligates each Fund to redeem shares in cash, with respect to any one shareholder during any 90-day period, up to the lesser of \$250,000 or 1% of the assets of a Fund. If the Adviser determines that existing conditions make cash payments undesirable, redemption payments may be made in whole or in part in securities or other financial assets, valued for this purpose as they are valued in computing the NAV for the applicable Fund’s shares (a “redemption in-kind”). Shareholders receiving securities or other financial assets in a redemption in-kind may realize a gain or loss for tax purposes on the Fund shares that they redeem, and when they dispose of the securities received in kind will incur any costs of sale, as well as the associated inconveniences. If you expect to make a redemption in excess of the lesser of \$250,000 or 1% of a Fund’s assets during any 90-day period and would like to avoid any possibility of being paid with securities in-kind, you may do so by providing the Fund with an unconditional instruction to redeem at least 15 calendar days prior to the date on which the redemption transaction is to occur, specifying the dollar amount or number of shares to be redeemed and the date of the transaction (please call toll free 1-877-421-5078). This will provide the applicable Fund with sufficient time to raise the cash in an orderly manner to pay the redemption and thereby minimize the effect of the redemption on the interests of such Fund’s remaining shareholders.

DETERMINATION OF NAV

NAV per Share for the Funds is computed by dividing the value of the net assets of the Funds (*i.e.*, the value of its total assets less total liabilities) by the total number of Shares outstanding, rounded to the nearest cent. Expenses and fees, including the management fees, are accrued daily and taken into account for purposes of determining NAV. The NAV of the Funds is calculated by PTL and determined at the scheduled close of the regular trading session on the NYSE (ordinarily 4:00 p.m., Eastern time) on each day that the NYSE is open, provided that fixed-income assets may be valued as of the announced closing time for trading in fixed-income instruments on any day that the Securities Industry and Financial Markets Association (“SIFMA”) announces an early closing time.

In calculating the Funds’ NAV per Share, the Funds’ investments are generally valued using market valuations. A market valuation generally means a valuation (i) obtained from an exchange, a pricing service, or a major market maker (or dealer), (ii) based on a price quotation or other equivalent indication of value supplied by an exchange, a pricing service, or a major market maker (or dealer) or (iii) based on amortized cost. In the case of shares of other funds that are not traded on an exchange, a market valuation means such fund’s published NAV per share. The Funds may use various pricing services, or discontinue the use of any pricing service, as approved by the Board from time to time. A price obtained from a pricing service based on such pricing service’s valuation matrix may be considered a market valuation.

DIVIDENDS AND DISTRIBUTIONS

The following information supplements and should be read in conjunction with the section in the Prospectus entitled “Dividends, Distributions and Taxes.”

General Policies. Dividends from net investment income, if any, are declared and paid at least annually by the Funds. Distributions of net realized securities gains, if any, generally are declared and paid once a year, but the Funds may make distributions on a more frequent basis to reduce or eliminate federal excise or income taxes or to comply with the distribution requirements of the Code, in all events in a manner consistent with the provisions of the 1940 Act.

Dividends and other distributions on Shares are distributed, as described below, on a pro rata basis to Beneficial Owners of such Shares. Dividend payments are made through DTC Participants and Indirect Participants to Beneficial Owners then of record with proceeds received from the Trust.

The Funds makes additional distributions to the extent necessary (i) to distribute the entire annual taxable income of the Funds, plus any net capital gains and (ii) to avoid imposition of the excise tax imposed by Section 4982 of the Code. Management of the Trust reserves the right to declare special dividends if, in its reasonable discretion, such action is necessary or advisable to preserve the Funds’ eligibility for treatment as a RIC or to avoid imposition of income or excise taxes on undistributed income.

Dividend Reinvestment Service. The Trust will not make the DTC book-entry dividend reinvestment service available for use by Beneficial Owners for reinvestment of their cash proceeds, but certain individual broker-dealers may make available the DTC book- entry Dividend Reinvestment Service for use by Beneficial Owners of the Funds through DTC Participants for reinvestment of their dividend distributions. Investors should contact their brokers to ascertain the availability and description of these services. Beneficial Owners should be aware that each broker may require investors to adhere to specific procedures and timetables to participate in the dividend reinvestment service and investors should ascertain from their brokers such necessary details. If this service is available and used, dividend distributions of both income and realized gains will be automatically reinvested in additional whole Shares issued by the Trust of the Funds at NAV per Share. Distributions reinvested in additional Shares will nevertheless be taxable to Beneficial Owners acquiring such additional Shares to the same extent as if such distributions had been received in cash.

FEDERAL INCOME TAXES

The following is only a summary of certain U.S. federal income tax considerations generally affecting the Funds and its shareholders that supplements the discussion in the Prospectus. No attempt is made to present a comprehensive explanation of the federal, state, local or foreign tax treatment of the Funds or its shareholders, and the discussion here and in the Prospectus is not intended to be a substitute for careful tax planning.

The following general discussion of certain U.S. federal income tax consequences is based on provisions of the Code and the regulations issued thereunder as in effect on the date of this SAI. New legislation, as well as administrative changes or court decisions, may significantly change the conclusions expressed herein, and may have a retroactive effect with respect to the transactions contemplated herein.

Shareholders are urged to consult their own tax advisers regarding the application of the provisions of tax law described in this SAI in light of the particular tax situations of the shareholders and regarding specific questions as to federal, state, foreign or local taxes.

This discussion only applies to shareholders who are U.S. persons, except where specifically stated. For purposes of this discussion, U.S. persons are: (i) U.S. citizens or residents, (ii) U.S. corporations (i.e., entities classified as corporations for U.S. tax purposes that are organized under the laws of the United States or any state), (iii) an estate whose income is subject to U.S. federal income taxation regardless of its source, or (iv) a trust, if a court within the United States is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all of its substantial decisions, or if the trust has a valid election in effect under applicable Treasury regulations to be treated as a U.S. person.

If a pass-through entity (including for this purpose any entity treated as a partnership or S corporation for U.S. federal income tax purposes) is a beneficial owner of shares, the tax treatment of an owner of the pass-through entity will generally depend upon the status of the owner and the activities of the pass-through entity.

Taxation of the Funds. The Funds elected and intend to continue to qualify each year to be treated as a separate RIC under the Code. As such, the Funds should not be subject to federal income taxes on their net investment income and capital gains, if any, to the extent that they timely distribute such income and capital gains to their shareholders. To qualify for treatment as a RIC, the Funds must distribute annually to its shareholders at least the sum of 90% of its net investment income (generally including the excess of net short-term capital gains over net long-term capital losses) and 90% of its net tax-exempt interest income, if any (the “Distribution Requirement”) and also must meet several additional requirements. Among these requirements are the following: (i) at least 90% of the Funds’ gross income each taxable year must be derived from dividends, interest, payments with respect to certain securities loans, gains from the sale or other disposition of stock, securities or foreign currencies, or other income derived with respect to its business of investing in such stock, securities or foreign currencies and net income derived from interests in qualified publicly traded partnerships (the “Qualifying Income Requirement”); and (ii) at the end of each quarter of the Funds’ taxable year, the Funds’ assets must be diversified so that (a) at least 50% of the value of the Fund’s total assets is represented by cash and cash items, U.S. government securities, securities of other RICs, and other securities, with such other securities limited, in respect to any one issuer, to an amount not greater in value than 5% of the value of the Funds’ total assets and to not more than 10% of the outstanding voting securities of such issuer, including the equity securities of a qualified publicly traded partnership, and (b) not more than 25% of the value of its total assets is invested, including through corporations in which the Fund owns a 20% or more voting stock interest, in the securities (other than U.S. government securities or securities of other RICs) of any one issuer, the securities (other than securities of other RICs) of two or more issuers which the Funds controls and which are engaged in the same, similar, or related trades or businesses, or the securities of one or more qualified publicly traded partnerships (the “Diversification Requirement”).

To the extent the Funds make investments that may generate income that is not qualifying income, including certain derivatives, the Funds will seek to restrict the resulting income from such investments so that the Funds’ non-qualifying income does not exceed 10% of its gross income.

Although the Funds intend to distribute substantially all of their net investment income and may distribute their capital gains for any taxable year, the Funds will be subject to federal income taxation to the extent any such income or gains are not distributed. Each Fund is treated as a separate corporation for federal income tax purposes. Each Fund therefore is considered to be a separate entity in determining its treatment under the rules for RICs described herein. The requirements (other than certain organizational requirements) for qualifying RIC status are determined at the fund level rather than at the Trust level.

If either of the Funds fails to satisfy the Qualifying Income Requirement or the Diversification Requirement in any taxable year, that Fund may be eligible for relief provisions if the failures are due to reasonable cause and not willful neglect and if a penalty tax is paid with respect to each failure to satisfy the applicable requirements. Additionally, relief is provided for certain *de minimis* failures of the Diversification Requirement where the Fund corrects the failure within a specified period of time. To be eligible for the relief provisions with respect to a failure to meet the Diversification Requirement, the Fund may be required to dispose of certain assets. If these relief provisions were not available to a Fund and it were to fail to qualify for treatment as a RIC for a taxable year, all of its taxable income would be subject to tax at the regular corporate income tax rate (currently, 21%) without any deduction for distributions to shareholders, and its distributions (including capital gains distributions) generally would be taxable to the shareholders of the Funds as ordinary income dividends, subject to the dividends received deduction for corporate shareholders and the lower tax rates on qualified dividend income received by non-corporate shareholders, subject to certain limitations. To requalify for treatment as a RIC in a subsequent taxable year, the Fund would be required to satisfy the RIC qualification requirements for that year and to distribute any earnings and profits from any year in which the Fund failed to qualify for tax treatment as a RIC. If a Fund failed to qualify as a RIC for a period greater than two taxable years, it would generally be required to pay a Fund-level tax on certain net built in gains recognized with respect to certain of its assets upon a disposition of such assets within five years of qualifying as a RIC in a subsequent year. The Board reserves the right not to maintain the qualification of the Funds for treatment as a RIC if it determines such course of action to be beneficial to shareholders. If the Board determines that a Fund will not qualify as a RIC, the Fund will establish procedures to reflect the anticipated tax liability in the Fund’s NAV.

The Funds may elect to treat part or all of any “qualified late year loss” as if it had been incurred in the succeeding taxable year in determining each Fund’s taxable income, net capital gain, net short-term capital gain, and earnings and profits. The effect of this election is to treat any such “qualified late year loss” as if it had been incurred in the succeeding taxable year in characterizing Fund distributions for any calendar year. A “qualified late year loss” generally includes net capital loss, net long-term capital loss, or net short-term capital loss incurred after October 31 of the current taxable year (commonly referred to as “post-October losses”) and certain other late-year losses.

Capital losses in excess of capital gains (“net capital losses”) are not permitted to be deducted against a RIC’s net investment income. Instead, for U.S. federal income tax purposes, potentially subject to certain limitations, a Fund may carry a net capital loss from any taxable year forward indefinitely to offset its capital gains, if any, in years following the year of the loss. To the extent subsequent capital gains are offset by such losses, they will not result in U.S. federal income tax liability to the Funds and may not be distributed as capital gains to its shareholders. Generally, the Funds may not carry forward any losses other than net capital losses. The carryover of capital losses may be limited under the general loss limitation rules if a Fund experiences an ownership change as defined in the Code.

Each of the Funds will be subject to a nondeductible 4% federal excise tax on certain undistributed income if it does not distribute to its shareholders in each calendar year an amount at least equal to 98% of its ordinary income for the calendar year plus 98.2% of its capital gain net income for the one-year period ending on October 31 of that year, subject to an increase for any shortfall in the prior year’s distribution. For this purpose, any ordinary income or capital gain net income retained by a Fund and subject to corporate income tax will be considered to have been distributed. Each of the Funds intends to declare and distribute dividends and distributions in the amounts and at the times necessary to avoid the application of the excise tax, but can make no assurances that all such tax liability will be eliminated. The Funds may in certain circumstances be required to liquidate Fund investments in order to make sufficient distributions to avoid federal excise tax liability at a time when the investment adviser might not otherwise have chosen to do so, and liquidation of investments in such circumstances may affect the ability of the Funds to satisfy the requirement for qualification as a RIC.

If a Fund meets the Distribution Requirement but retains some or all of its income or gains, it will be subject to federal income tax to the extent any such income or gains are not distributed. A Fund may designate certain amounts retained as undistributed net capital gain in a notice to its shareholders, who (i) will be required to include in income for U.S. federal income tax purposes, as long-term capital gain, their proportionate shares of the undistributed amount so designated, (ii) will be entitled to credit their proportionate shares of the income tax paid by the Fund on that undistributed amount against their federal income tax liabilities and to claim refunds to the extent such credits exceed their tax liabilities, and (iii) will be entitled to increase their tax basis, for federal income tax purposes, in their Shares by an amount equal to the excess of the amount of undistributed net capital gain included in their respective income over their respective income tax credits.

Taxation of Shareholders – Distributions. Each of the Funds intends to distribute annually to its shareholders substantially all of its investment company taxable income (computed without regard to the deduction for dividends paid), its net tax-exempt income, if any, and any net capital gain (net recognized long-term capital gains in excess of net recognized short-term capital losses, taking into account any capital loss carryforwards). The distribution of investment company taxable income (as so computed) and net realized capital gain will be taxable to the Fund’s shareholders regardless of whether the shareholder receives these distributions in cash or reinvests them in additional Shares.

Each of the Funds will report to shareholders annually the amounts of dividends paid from ordinary income, the amount of distributions of net capital gain, the portion of dividends which may qualify for the dividends-received deduction for corporations, and the portion of dividends which may qualify for treatment as qualified dividend income, which is taxable to non-corporate shareholders at rates of up to 20%.

Qualified dividend income includes, in general, subject to certain holding period and other requirements, dividend income from taxable domestic corporations and certain foreign corporations. Subject to certain limitations, eligible foreign corporations include those incorporated in possessions of the United States, those incorporated in certain countries with comprehensive tax treaties with the United States, and other foreign corporations if the stock with respect to which the dividends are paid is readily tradable on an established securities market in the United States. Dividends received by the Funds from an ETF, an underlying fund taxable as a RIC, or from a REIT may be treated as qualified dividend income generally only to the extent so reported by such ETF, underlying fund, or REIT; however, dividends received by a Fund from a REIT are generally not treated as qualified dividend income. If 95% or more of a Fund’s gross income (calculated without taking into account net capital gain derived from sales or other dispositions of stock or securities) consists of qualified dividend income, the Fund may report all distributions of such income as qualified dividend income.

Fund dividends will not be treated as qualified dividend income if the Fund does not meet holding period and other requirements with respect to dividend paying stocks in its portfolio, and the shareholder does not meet holding period and other requirements with respect to the Shares on which the dividends were paid.

Distributions by a Fund of its net short-term capital gains will be taxable as ordinary income. Distributions from a Fund's net capital gain will be taxable to shareholders at long-term capital gains rates, regardless of how long shareholders have held their Shares. Distributions may be subject to state and local taxes.

In the case of corporate shareholders, certain distributions from a Fund that are attributable to certain dividends received by the Fund from U.S. corporations (generally, dividends received by the Fund in respect of any share of stock (1) with a tax holding period of at least 46 days during the 91-day period beginning on the date that is 45 days before the date on which the stock becomes ex-dividend as to that dividend, and (2) that is held in an unleveraged position) may be eligible for the 50% dividends received deduction. Certain preferred stock must have a holding period of at least 91 days during the 181-day period beginning on the date that is 90 days before the date on which the stock becomes ex-dividend as to that dividend to be eligible. Capital gain dividends distributed to the Funds from other RICs are not eligible for the dividends received deduction. To qualify for a dividends received deduction, corporate shareholders must meet the minimum holding period requirement stated above with respect to their Shares, taking into account any holding period reductions from certain hedging or other transactions or positions that diminish their risk of loss with respect to their Shares, and, if they borrow to acquire or otherwise incur debt attributable to Shares, they may be denied a portion of the dividends received deduction with respect to those Shares.

A Fund that receives business interest income may pass through its net business interest income for purposes of the tax rules applicable to the interest expense limitations under Section 163(j) of the Code. A Fund's total "Section 163(j) Interest Dividend" for a tax year is limited to the excess of the Fund's business interest income over the sum of its business interest expense and its other deductions properly allocable to its business interest income. A Fund may, in its discretion, designate all or a portion of ordinary dividends as Section 163(j) Interest Dividends, which would allow the recipient shareholder to treat the designated portion of such dividends as interest income for purposes of determining such shareholder's interest expense deduction limitation under Section 163(j). This can potentially increase the amount of a shareholder's interest expense deductible under Section 163(j). In general, to be eligible to treat a Section 163(j) Interest Dividend as interest income, you must have held your shares in the Fund for more than 180 days during the 361-day period beginning on the date that is 180 days before the date on which the share becomes ex-dividend with respect to such dividend. Section 163(j) Interest Dividends, if so designated by a Fund, will be reported in accordance with the requirements specified by the Internal Revenue Service ("IRS").

Although dividends generally will be treated as distributed when paid, any dividend declared by a Fund in October, November or December and payable to shareholders of record in such a month that is paid during the following January will be treated for U.S. federal income tax purposes as received by shareholders on December 31 of the calendar year in which it was declared.

Shareholders who have not held Shares for a full year should be aware that the Funds may report and distribute, as ordinary dividends or capital gain dividends, a percentage of income that is not equal to the percentage of each Fund's ordinary income or net capital gain, respectively, actually earned during the applicable shareholder's period of investment in the Funds. A taxable shareholder may wish to avoid investing in the Funds shortly before a dividend or other distribution, because the distribution will generally be taxable even though it may economically represent a return of a portion of the shareholder's investment.

To the extent that a Fund makes a distribution of income received by the Fund in lieu of dividends (a "substitute payment") with respect to securities on loan pursuant to a securities lending transaction, such income will not constitute qualified dividend income to individual shareholders and will not be eligible for the dividends received deduction for corporate shareholders.

If a Fund's distributions exceed its earnings and profits, all or a portion of the distributions made for a taxable year may be recharacterized as a return of capital to shareholders. A return of capital distribution will generally not be taxable, but will reduce each shareholder's cost basis in the Fund and result in a higher capital gain or lower capital loss when the Shares on which the distribution was received are sold. After a shareholder's basis in the Shares has been reduced to zero, distributions in excess of earnings and profits will be treated as gain from the sale of the shareholder's Shares.

Taxation of Shareholders – Redemption or Exchange of Shares. A redemption or exchange of Shares may give rise to a gain or loss. In general, any gain or loss realized upon a taxable disposition of Shares (including either a redemption or an exchange for shares of a different fund) will be treated as long-term capital gain or loss if the Shares have been held for more than 12 months. Otherwise, the gain or loss on the taxable disposition of Shares will generally be treated as short-term capital gain or loss. Any loss realized upon a taxable disposition of Shares held for six months or less will be treated as long-term capital loss, rather than short-term capital loss, to the extent of any amounts treated as distributions to the shareholder of long-term capital gain (including any amounts credited to the shareholder as undistributed capital gains). All or a portion of any loss realized upon a taxable disposition of Shares may be disallowed if substantially identical Shares are acquired (through the reinvestment of dividends or otherwise) within a 61-day period beginning 30 days before and ending 30 days after the disposition. In such a case, the basis of the newly acquired Shares will be adjusted to reflect the disallowed loss.

The cost basis of Shares acquired by purchase will generally be based on the amount paid for Shares, and may be subsequently adjusted for other applicable transactions as required by the Code. The difference between the selling price and the cost basis of Shares generally determines the amount of the capital gain or loss realized on the sale or exchange of Shares.

Taxation of Shareholders – Net Investment Income Tax. U.S. individuals with adjusted gross income (subject to certain adjustments) exceeding certain threshold amounts (\$250,000 if married filing jointly or if considered a “surviving spouse” for federal income tax purposes, \$125,000 if married filing separately, and \$200,000 in other cases) are subject to a 3.8% tax on all or a portion of their “net investment income,” which includes taxable interest, dividends, and certain capital gains (generally including capital gain distributions and capital gains realized on the redemption or exchange of Shares). This 3.8% tax also applies to portions of the undistributed net investment income of certain shareholders that are estates and trusts that exceed certain threshold amounts.

Taxation of Fund Investments. Certain of a Fund’s investments may be subject to complex provisions of the Code (including provisions relating to hedging transactions, straddles, integrated transactions, foreign currency contracts, forward foreign currency contracts, and notional principal contracts) that, among other things, may affect the Fund’s ability to qualify as a RIC, affect the character of gains and losses realized by the Fund (e.g., may affect whether gains or losses are ordinary or capital), accelerate recognition of income to the Fund and defer losses. These rules could therefore affect the character, amount and timing of distributions to shareholders. These provisions also may require a Fund to mark to market certain types of positions in its portfolio (i.e., treat them as if they were closed out) which may cause the Fund to recognize income without the Fund receiving cash with which to make distributions in amounts sufficient to enable the Fund to satisfy the RIC distribution requirements for avoiding income and excise taxes. Each of the Funds intends to monitor its transactions, make appropriate tax elections, and make appropriate entries in its books and records in order to mitigate the effect of these rules and preserve the Fund’s qualification for treatment as a RIC. To the extent that a Fund invests in an underlying fund that is taxable as a RIC, the rules applicable to the tax treatment of complex securities will also apply to the underlying funds that also invest in such complex securities and investments.

Backup Withholding. The Funds will be required in certain cases to withhold (as “backup withholding”) on amounts payable to any shareholder who (1) fails to provide a correct taxpayer identification number certified under penalty of perjury; (2) is subject to backup withholding by the IRS for failure to properly report all payments of interest or dividends; (3) fails to provide a certified statement that he or she is not subject to “backup withholding”; or (4) fails to provide a certified statement that he or she is a U.S. person (including a U.S. resident alien). The backup withholding rate is currently 24% for tax years beginning before 2026. Backup withholding is not an additional tax and any amounts withheld may be credited against the shareholder’s ultimate U.S. tax liability. Backup withholding will not be applied to payments that have been subject to the 30% withholding tax on shareholders who are neither citizens nor permanent residents of the U.S.

Non-U.S. Shareholders. Any non-U.S. investors in the Funds may be subject to U.S. withholding and estate tax and are encouraged to consult their tax advisers prior to investing in the Funds. Foreign shareholders (*i.e.*, nonresident alien individuals and foreign corporations, partnerships, trusts and estates) are generally subject to U.S. withholding tax at the rate of 30% (or a lower tax treaty rate) on distributions derived from taxable ordinary income. In general, a foreign shareholder of the Fund that intends to qualify for a lower rate of withholding on distributions from a Fund under an applicable U.S. income tax treaty must provide the Fund with proper document (generally on a Form W-8BEN or a Form W-8BEN-E) certifying its eligibility for treaty relief. The Funds may, under certain circumstances, report all or a portion of a dividend as an “interest-related dividend” or a “short-term capital gain dividend,” which would generally be exempt from this 30% U.S. withholding tax, provided that the Fund receives a properly completed and signed certificate of foreign status (generally on an applicable IRS Form W-8) and certain other requirements are met. Short-term capital gain dividends received by a nonresident alien individual who is present in the U.S. for a period or periods aggregating 183 days or more during the taxable year are not exempt from this 30% withholding tax. Gains realized by foreign shareholders from the sale or other disposition of Shares generally are not subject to U.S. taxation, unless the recipient is an individual who is physically present in the U.S. for 183 days or more per year. Foreign shareholders who fail to provide an applicable IRS form may be subject to backup withholding on certain payments from the Funds. Backup withholding will not be applied to payments that are subject to the 30% (or lower applicable treaty rate) withholding tax described in this paragraph. Different tax consequences may result if the foreign shareholder is engaged in a trade or business within the United States. In addition, the tax consequences to a foreign shareholder entitled to claim the benefits of a tax treaty may be different than those described above.

Other Withholding Requirements. Under legislation generally known as “FATCA” (the Foreign Account Tax Compliance Act), the Funds are required to withhold 30% of certain ordinary dividends it pays to shareholders that fail to meet prescribed information reporting or certification requirements. In general, no such withholding will be required with respect to a U.S. person or non-U.S. person that timely provides the certifications required by a fund or its agent on a valid IRS Form W-9 or applicable series of IRS Form W-8, respectively. Shareholders potentially subject to withholding include foreign financial institutions (“FFIs”), such as non-U.S. investment funds, and non-financial foreign entities (“NFFEs”). To avoid withholding under FATCA, an FFI generally must enter into an information sharing agreement with the IRS in which it agrees to report certain identifying information (including name, address, and taxpayer identification number) with respect to its U.S. account holders (which, in the case of an entity shareholder, may include its direct and indirect U.S. owners), and an NFFE generally must identify and provide other required information to the Funds or other withholding agent regarding its U.S. owners, if any. Such non-U.S. shareholders also may fall into certain exempt, excepted or deemed compliant categories as established by regulations and other guidance. A non-U.S. shareholder resident or doing business in a country that has entered into an intergovernmental agreement with the United States to implement FATCA will be exempt from FATCA withholding provided that the shareholder and the applicable foreign government comply with the terms of the agreement.

A non-U.S. entity that invests in a Fund will need to provide the Fund with documentation properly certifying the entity’s status under FATCA in order to avoid FATCA withholding. Non-U.S. investors in the Funds should consult their tax advisors in this regard.

Tax-Exempt Shareholders. Certain tax-exempt shareholders, including qualified pension plans, individual retirement accounts, salary deferral arrangements, 401(k) plans, and other tax-exempt entities, generally are exempt from federal income taxation except with respect to their unrelated business taxable income (“UBTI”). Tax-exempt entities are not permitted to offset losses from one unrelated trade or business against the income or gain of another unrelated trade or business. Certain net losses incurred prior to January 1, 2018 are permitted to offset gain and income created by an unrelated trade or business, if otherwise available. Under current law, in many cases, a tax-exempt shareholder may be able to invest in a Fund without receiving UBTI from its investment in the Fund. However, notwithstanding the foregoing, tax-exempt shareholders could realize UBTI by virtue of their investment in the Funds if, for example, (i) the Funds invests in residual interests of Real Estate Mortgage Investment Conduits (“REMICs”), (ii) the Funds invests in a REIT that is a taxable mortgage pool (“TMP”) or that has a subsidiary that is a TMP or that invests in the residual interest of a REMIC, or (iii) Shares constitute debt-financed property in the hands of the tax-exempt shareholders within the meaning of section 514(b) of the Code. Charitable remainder trusts are subject to special rules and should consult their tax advisors. The IRS has issued guidance with respect to these issues and prospective shareholders, especially charitable remainder trusts, are strongly encouraged to consult with their tax advisors regarding these issues.

The Funds’ shares held in a tax-qualified retirement account will generally not be subject to federal taxation on income and capital gains distributions from the Funds until a shareholder begins receiving payments from their retirement account. Because each shareholder’s tax situation is different, shareholders should consult their tax advisors with specific reference to their own tax situations, including their state, local, and foreign tax liabilities.

Certain Potential Tax Reporting Requirements. Under U.S. Treasury regulations, if a shareholder recognizes a loss on disposition of Shares of \$2 million or more for an individual shareholder, or \$10 million or more for a corporate shareholder (or certain greater amounts over a combination of years), the shareholder must file with the IRS a disclosure statement on IRS Form 8886. Direct shareholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, shareholders of a RIC are not excepted. Significant penalties may be imposed for the failure to comply with the reporting requirements. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer's treatment of the loss is proper. Shareholders should consult their tax advisers to determine the applicability of these regulations in light of their individual circumstances.

Other Issues. In those states which have income tax laws, the tax treatment of Funds and of Fund shareholders with respect to distributions by the Funds may differ from federal tax treatment.

FINANCIAL STATEMENTS

The audited financial statements and report of the independent registered public accounting firm required to be included in this SAI are hereby incorporated by reference to the Annual Report for the Predecessor Funds for the fiscal year ended April 30, 2025. You can obtain a copy of the Predecessor Fund's Semi-Annual and Annual Report to Shareholders without charge by calling the Funds at 1-877-421-5078 or visiting the Funds' website at <https://vulcanvaluepartners.com/mutual-funds/>.

APPENDIX A

Proxy Voting and Class Actions	
Functional Area / Compliance Topic	Proxy Voting and Class Actions
Oversight Responsibility	Compliance
Source of Requirements	<p>Rule 206(4)-6 under the Advisers Act of 1940</p> <p>Investment Advisers Act Release No. 2106 (January 31, 2003) https://www.sec.gov/rules/final/ia-2106.htm</p>
Requirements	<p>In Proxy Voting by Investment Advisers, Investment Advisers Act Release No. 2106 (January 31, 2003), the SEC noted that, “The federal securities laws do not specifically address how an adviser must exercise its proxy voting authority for its clients. Under the Advisers Act, however, an adviser is a fiduciary that owes each of its clients a duty of care and loyalty with respect to all services undertaken on the client’s behalf, including proxy voting. The duty of care requires an adviser with proxy voting authority to monitor corporate events and to vote the proxies.”</p> <p>Rule 206(4)-6 under the Advisers Act requires each registered investment adviser that exercises proxy voting authority with respect to client securities to:</p> <ul style="list-style-type: none"> • Adopt and implement written policies and procedures reasonably designed to ensure that the adviser votes client securities in the clients’ best interests. Such policies and procedures must address the manner in which the adviser will resolve material conflicts of interest that can arise during the proxy voting process; • Disclose to clients how they may obtain information from the adviser about how the adviser voted with respect to their securities; and • Describe to clients the adviser’s proxy voting policies and procedures and, upon request, furnish a copy of the policies and procedures. <p>Additionally, paragraph (c)(2) of Rule 204-2 imposes additional recordkeeping requirements on investment advisers that execute proxy voting authority, as described in the <i>Maintenance of Books and Records</i> section of this Manual.</p> <p>The Advisers Act lacks specific guidance regarding an adviser’s duty to direct clients’ participation in class actions. However, many investment advisers adopt policies and procedures regarding class actions.</p>

Policy	<p>Proxies are assets of Vulcan’s Clients that must be voted with diligence, care, and loyalty. Vulcan will vote each proxy in accordance with its fiduciary duty to its Clients. Vulcan will generally seek to vote proxies in a way that maximizes the value of Clients’ assets. However, Vulcan will document cases in which it chooses to follow any specific proxy voting recommendations conveyed by a Client with respect to that Client’s securities. The Operations and Research Departments coordinate Vulcan’s proxy voting process while the Chief Compliance Officer reviews Vulcan’s elections for any conflicts of interest.</p> <p>Paragraph (c)(ii) of Rule 204-2 under the Advisers Act requires Vulcan to maintain certain books and records associated with its proxy voting policies and procedures. The Chief Compliance Officer will ensure that Vulcan complies with all applicable recordkeeping requirements associated with proxy voting.</p> <p>This policy applies to all client accounts, including private funds for which Vulcan or Enduring Equity Enduring Equity Holdings, LLC (“Affiliate”) serves as general partner. Any reference to Vulcan or its Supervised Persons is intended to include those of the Affiliate unless otherwise stated.</p>	
PROCEDURE	RESPONSIBILITY	PROCESS SUMMARY
Voting Procedures	Research, Operations	<p>Absent specific Client instructions, Vulcan has adopted the following proxy voting procedures designed to ensure that proxies are properly identified and voted, and that any conflicts of interest are addressed appropriately:</p> <ul style="list-style-type: none"> Any proxy materials received on behalf of clients are forwarded to the Operations Department; The Operations Department will determine which client accounts hold the security to which the proxy relates; Absent material conflicts, the Research Department determines how Vulcan should vote the proxy in accordance with the voting guidelines noted below, and provides instructions on how to vote the proxy to the Operations Department. The Operations Department completes the proxy and vote the proxy in a timely and appropriate manner. Vulcan generally utilizes ProxyEdge, an electronic voting service, to manage the process of meeting notification, voting, tracking, reporting and record maintenance. ProxyEdge provides an automated electronic interface directly to the custodian, bank or broker-dealer. For custodians that are not established in ProxyEdge, Vulcan will vote manually via paper ballot or through other online systems such as the custodian’s website or ProxyVote.com.

		For the Affiliate, the investment personnel will notify the Chief Compliance Officer upon receipt of proxy materials with its intended vote for review. Absent material conflicts, the Affiliate will complete the proxy and vote in a timely and appropriate manner. Generally, the affiliate will vote manually via paper ballot or through other systems such as the custodian's website or ProxyVote.com
Voting Guidelines	Research, Compliance	<ul style="list-style-type: none"> • Vulcan will use its best judgment to vote proxies in the best interests of each client. Vulcan's policy is to vote all proxies from a specific issuer the same way for each client absent qualifying restrictions from a client. • Vulcan will generally vote in favor of routine corporate governance proposals such as the election of directors, change in state of incorporation or capital structure and selection of auditors absent conflicts of interest raised by an auditor's non-audit services. • Vulcan will generally vote in favor of management on non-routine corporate governance issues unless voting with management would limit shareholder rights or have a negative impact on shareholder value. Non-routine issues may include, but not be limited to, corporate restructuring, mergers and acquisitions, proposals affecting shareholder rights, anti-takeover issues, executive compensation, and social and political issues. • Vulcan may further consider the recommendations of management and the effect on management, and the effect on shareholder value and the issuer's business practices.
Conflicts of Interest	Compliance	<ul style="list-style-type: none"> • Vulcan will identify any conflicts that exist between its interests and those of the client by reviewing Vulcan's relationship with the issuer of each security to determine if Vulcan or any of its employees has any financial, business, or personal relationship with the issuer. • If a material conflict of interest exists, the CCO will determine whether it is appropriate to disclose the conflict to the affected client, to give the client an opportunity to vote the proxies themselves, or to address the voting issue through other objective means such as abstaining, voting in a manner consistent with a predetermined voting policy or receiving an independent third party voting recommendation.

		<ul style="list-style-type: none"> • Any decision to override a vote due to a conflict of interest will be made by the Research Team and reported to the CCO who will record in writing the basis for any such determination. • Vulcan will maintain a record of the resolution of any conflict of interest concerning voting. • Vulcan will not neglect its proxy voting responsibilities, but the Company may abstain from voting if it deems that abstaining is in its Clients' best interests. For example, Vulcan may be unable to vote securities that have been lent by the custodian. Also, proxy voting in certain countries involves "share blocking," which limits Vulcan's ability to sell the affected security during a blocking period that can last for several weeks. Vulcan believes that the potential consequences of being unable to sell a security usually outweigh the benefits of participating in a proxy vote, so Vulcan may elect to abstain from voting when share blocking is required. Vulcan will maintain records of the rationale for any instance in which Vulcan does not vote a Client's proxy. Vulcan is only responsible for proxy materials received in a timely manner. • ProxyEdge will retain the following information in connection with each proxy vote: <ul style="list-style-type: none"> ○ The Issuer's name; ○ The security's ticker symbol or CUSIP, as applicable; ○ The shareholder meeting date; ○ The number of shares that Vulcan voted; ○ A brief identification of the matter voted on; ○ Whether the matter was proposed by the Issuer or a security-holder; ○ Whether Vulcan cast a vote; ○ How Vulcan cast its vote (for the proposal, against the proposal, or abstain); and ○ Whether Vulcan cast its vote with or against management.
--	--	---

		<ul style="list-style-type: none"> • If Vulcan votes the same proxy in two directions, the Chief Compliance Officer will maintain documentation describing the reasons for each vote (e.g., Vulcan believes that voting with management is in Clients' best interests, but one Client gave specific instructions to vote against management). • Any attempt to influence the proxy voting process by Issuers or others not identified in these policies and procedures should be promptly reported to the Chief Compliance Officer. Similarly, any Client's attempt to influence proxy voting with respect to other Clients' securities should be promptly reported to the Chief Compliance Officer. • Proxies received after a Client terminates its advisory relationship with Vulcan will not be voted.
Class Actions	Compliance	<p>As a fiduciary, Vulcan always seeks to act in Clients' best interests with good faith, loyalty, and due care. If within Vulcan's discretion, the Chief Compliance Officer will determine whether Clients will (a) participate in a recovery achieved through a class actions, or (b) opt out of the class action or (c) separately pursue their own remedy. Vulcan utilizes a third party that oversees the completion of Proof of Claim forms and any associated documentation, the submission of such documents to the claim administrator, and the receipt of any recovered monies. The Chief Compliance Officer will maintain documentation associated with Clients' participation in class actions.</p> <p>Employees must notify the Chief Compliance Officer if they are aware of any material conflict of interest associated with Clients' participation in class actions. The Chief Compliance Officer will evaluate any such conflicts and determine an appropriate course of action for Vulcan.</p> <p>Vulcan generally does not serve as the lead plaintiff in class actions because the costs of such participation typically exceed any extra benefits that accrue to lead plaintiffs.</p>
Disclosures to Clients	Compliance	<p>Vulcan includes a description of its policies and procedures regarding proxy voting and class actions in Part 2 of Form ADV, along with a statement that Clients can contact the Chief Compliance Officer to obtain a copy of these policies and procedures and information about how Vulcan voted with respect to the Client's securities.</p>

		As a matter of policy, Vulcan does not disclose how it expects to vote on upcoming proxies. Additionally, Vulcan does not disclose the way it voted proxies to unaffiliated third parties without a legitimate need to know such information.
Recordkeeping	Compliance	<p>The Chief Compliance Officer shall retain the following proxy records in accordance with the SEC's five-year retention requirement.</p> <ul style="list-style-type: none"> • These policies and procedures and any amendments; • Each proxy statement that Vulcan receives; • A record of each vote that Vulcan casts; • Any document Vulcan created that was material to making a decision how to vote proxies, or that memorializes that voting decision. • A copy of each written request from a client for information on how Vulcan voted such client fund's proxies, and a copy of any written response.
Periodic Reviews	Operations completes a proxy vote checklist and submits the checklist to the Chief Compliance Officer for review and approval.
